Purpose and Scope

This guide provides Governmentwide policies for federal program agencies to account for and reconcile transactions occurring within and between each other (referred to collectively as intragovernmental transactions). The policies in this guide do not apply to transactions occurring between federal agencies and non-federal entities, states, localities or other entities.

This guide is designed to provide agencies with the Governmentwide accounting policies relative to intragovernmental transactions, tools to facilitate the reconciliation process, and examples of: accounting and reporting various types of transactions, year-end cut-off procedures and reconciliation procedures.

The policies and examples in this guide provide a foundation and framework for accounting for intragovernmental transactions, reconciling and determining the accuracy of balances, and a basis for the elimination of intragovernmental balances both at the agency and Governmentwide levels.

Implementation of policies in this guide will enhance the process of recording intragovernmental transactions and facilitate the reconciliation and reporting of these activities and balances for all agencies. These policies will also standardize the business practice across the Federal government and improve the quality of agency reporting. The accounting policies and procedures are based on the accounts available in the fiscal year 2005 USSGL.

This guide includes policies for the following intragovernmental transactions:

Transaction	Examples of Transactions
Services provided and reimbursables	Legal, consulting, investigative, financial
	management, grants management,
	technology, administrative costs, and other
	similar services.
Cost of products sold	Supplies, manufactured items, inventory,
	office space, and equipment/vehicle rentals.
Transfers, appropriations used and	Transfers between agencies based on
collections for others, and unusual	agreements or legislative authority,
assets and liabilities related to	expended appropriations, taxes and fees
appropriations	collected, collections for others, receivables
	from appropriations, transfers payable, and
	custodial revenue.
Investments with Treasury (BPD)	Investments, interest accruals, interest
	income and expense, and amortization of
	premiums and discounts.
Borrowings from Treasury (BPD	Borrowings, interest income and expense.
and FFB)	
Transactions with the DOL relating	Recording of FECA expenses and
to the Federal Employees'	liabilities, including the accrual of actuarial

Transaction	Examples of Transactions
Compensation Act	liabilities.
Transactions with the DOL relating	To record unemployment insurance
to Unemployment Insurance	expenses and liabilities.
Transactions with the OPM relating	Recording of expenses, liabilities and
to the Federal Employees'	imputed financing.
Retirement System, the Civil	
Service Employees' Retirement	
System, Federal Employees' Life	
Insurance Program and Health	
Benefits Programs.	

This guide does not include detailed examples of the budgetary accounting and some of the proprietary accounting related to these intragovernmental transactions. Policy guidance for budgetary accounting transactions can be found at the FMS website (http://www.fms.treas.gov/ussgl).

This guide replaces and supersedes the previously issued guide, *Federal Intragovernmental Transactions Accounting Policies Guide*, issued on September 24, 2004.

Definitions

The following definitions are used in this guide:

Business Rules—A standard set of regulations, issued by OMB, which provides Federal entities official guidance with recording and reconciling fiduciary transactions and Intragovernmental exchange activity. This is an effort to standardize the business practice across the Federal government.

Buy/Sell—Intragovernmental exchange transactions related to goods and services rendered, accounts receivable/payable and other liabilities, advances, prepayments from/to and deferred credits.

Closing Package—A methodology designed to link agencies' comparative, audited consolidated, department-level financial statements to the Financial Report (FR), starting FY 2004. It is the data submitted by each verifying agency for inclusion in the FR.

Duplicate Partner Code Identifier (DPCI) – A single-digit code applied to a reporting trading partner agency sharing a 2-digit agency code with another agency (i.e. PBGC, FCSIC, Smithsonian).

Exchange—Activity arising when a Federal entity provides goods and services to the public or to another Federal entity for a price.

Fiduciary—Intragovernmental transactions that consist of Bureau of Public Debt investments and borrowings, Federal Financing Bank borrowings, Department of Labor FECA transactions, and Office of Personnel Management health, life, and retirement benefits.

Intradepartmental Balance—This USSGL account balance results from a transaction between trading partners in the same department.

Intragovernmental Activity/Balances—Revenue/expense transactions, asset/liability transactions, and transfers resulting from business activities conducted by Federal entities.

Intragovernmental Fiduciary Confirmation System (IFCS)—An internet-based application for confirming and reconciling fiduciary balances (quarterly and year-end). This is the official confirmation system for Federal agencies and departments that engage in fiduciary Intragovernmental transactions. Agencies and departments must use the IFCS to confirm and reconcile activity and balances activity for investments, borrowings, FECA transactions, and Employee Benefits transactions.

Intragovernmental Reporting and Analysis System (IRAS)—A FMS internal database application used to conduct in-depth analysis and to synthesize/provide quarterly and year-end Closing Package reporting, as well as IFCS reporting, of all intragovernmental transactions to Federal entities.

Intragovernmental Transactions—Business activities occurring within or between Federal agencies.

Non-Exchange—Refers to revenue arising primarily from exercise of the Government's power to demand payments from the public (taxes, duties, fines, and penalties) and also includes donations.

Non-Fiduciary—Consist of Intragovernmental buy/sell (exchange) transactions, transfers, and non-Treasury investment transactions.

Out-of-Balance Condition—The net difference between the reporting agency's activity and its trading partner's activity for a particular reciprocal category.

Performance Measures—Used to measure agency reporting performance for intragovernmental activity each fiscal year (for verifying reporting agencies).

Providing Agency—The Federal agency (includes bureaus, departments and/or programs within agencies) providing services, products, goods, transfer funds, investments, debt and/or incurring the reimbursable costs. The providing agency is considered the seller for exchange transactions and the transferring out entity when appropriations are transferred.

Receiving Agency—The Federal agency (includes bureaus, departments and/or programs within agencies) receiving services, products, goods, transfer funds, purchasing investments and/or borrowing from Treasury (or other agency). The receiving agency is the purchaser for exchange transactions and the transferring in entity when appropriations are transferred.

Reciprocal Category (RC)—Pairings of related USSGL accounts that should be used by providing and receiving agencies to reconcile like intragovernmental activity/balances. It is also a pair of Closing Package financial statement Federal line items that will be used to perform eliminations at the Governmentwide level.

Reporting Agency (RA)—A Federal entity that reports intragovernmental amounts against its trading partner for a reciprocal category.

Trading Partner (TP)—An agency, department, bureau, or other Federal entity that is the party to Intragovernmental transactions with another Federal agency.

Trading Partner Code—The attribute used to identify the trading partner agency.

General Instructions

Use of 2-digit trading partner codes: Agencies must use 2-digit trading partner codes for all intragovernmental transactions, when submitting quarterly data file extracts to FMS.

Use of 4-digit trading partner codes: Agencies must use 4-digit trading partner codes, established in the Governmentwide Financial Report System (GFRS), for yearend reporting of all intragovernmental transactions.

Appropriation Transfers: When agencies report "appropriation transfers" within their departments, they should use their 2-digit trading partner code rather than "00." Trading partner code "00" is limited to the House, Senate, classified transactions, or any truly unidentifiable activity/balances.

Buy/Sell Transactions: Agencies that have buy/sell relations, in which a capitalized asset is purchased versus incurring expenses, should use USSGL Account 8802F (Purchases of

Capitalized Assets) and USSGL 8801 (Offset for Purchases of Capitalized Assets), as well as the appropriate USSGL asset account.

Additional information on the above general intragovernmental instructions is available throughout this document.

Agencies' Responsibilities

Each agency is responsible for:

- Establishing and maintaining a structure for its intragovernmental transactions (initiating, executing, recording, reconciling and reporting procedures).
- Documenting and supporting the information recorded in its accounting records related to intragovernmental transactions.
- Recording activity between Federal entities at the transaction level. Do not net accounting activity or intragovernmental balances, even if the activity is in the same reciprocal category.
- Providing intragovernmental balances ("F" transactions) for all proprietary USSGL accounts to FMS each quarter.
- Reconciling the intragovernmental data in its accounting records to the supporting documentation based on FMS IRAS Reports.
- Submitting intragovernmental Closing Package data by Federal line item to FMS at yearend.
- Ensuring that the reconciled and confirmed balances for intragovernmental transactions agree to agency audited financial statements and Closing Package reporting.
- Completing the CFO Representations for Federal Intragovernmental Activity and Balances (i.e. Section I, Section II and Additional Explanations Sheet), and providing the information to FMS, GAO, and the agency's IG.
- Performing IG Agreed-Upon Procedures for Federal Intragovernmental Activity and Balances, and delivering the report to FMS, GAO, and the agency's CFO.
- Representing that all intragovernmental balances have been reconciled and that those balances are presented in the agency's audited financial statements as instructed by OMB Bulletin No. 01-09, Form and Content of Agency Financial Statements, dated September 25, 2001.
- Establishing a consistent relationship with their trading partners in order to identify and resolve differences.

Effective Dates

The policies and procedures in this guide are effective immediately and apply to all intragovernmental transactions related to asset, liability, cost and revenue accounts.

Reporting Requirements Authority

Agencies are required to comply with OMB Bulletin No. 01-09, Form and Content of Agency Financial Statements, dated September 25, 2001, and OMB Intragovernmental Business Rules Memorandum M-03-01, dated October 4, 2002, for reconciliation of intragovernmental transactions.

Agencies may obtain copies of OMB Bulletin No. 01-09, Form and Content of Agency Financial Statements, dated September 25, 2001and the business rules from the OMB Website at http://www.whitehouse.gov/omb

Reconciliation Assurance Level

For fiscal 2005, a reconciliation assurance level will be systematically established in IRAS using four functions:

- (1) Obtaining sufficient explanation of out-of-balance condition.
- (2) Obtaining assurance that agencies are performing quarterly intragovernmental reconciliation in accordance with OMB Bulletin No. 01-09, Form and Content of Agency Financial Statements, dated September 25, 2001.
- (3) Ensuring agencies are mutually completing "Status of Disposition Certification" for the same trading partner/reciprocal category material difference instances.
- (4) Minimizing the number of differences subject to certification through a sampling process.

Quarterly Intragovernmental Reconciliation Process

The quarterly reconciliation process will facilitate elimination of intragovernmental differences for year-end financial reporting.

The OMB Bulletin No. 01-09, Form and Content of Agency Financial Statements, dated September 25, 2001, requires Federal Chief Financial Officers (CFO) Act and non-CFO Act entities identified by Treasury in the Treasury Financial Manual, TFM 2005, Vol. I, Part 2-Chapter 4700, Agency Reporting Requirements for the Financial Report of the United States Government dated May 6, 2005, to perform quarterly reconciliation of intragovernmental activity/balances.

In support of the quarterly reconciliation process, reporting agencies are required to submit intragovernmental balances (only transactions with the "F" attribute) for all proprietary USSGL accounts to FMS no later than July 25, 2005 for the third (3rd) quarter and October 19, 2005 for the fourth (4th) quarter.

Agencies should derive the submitted intragovernmental balances directly from departmental trial balances that were used as the basis for constructing quarterly unaudited financial statements for OMB.

An example of the format appears in the section entitled "Quarterly "F" Data File Submission – Description and Formats."

Quarterly "F" Data File Submission - Description and Formats

In an effort to streamline FMS quarterly intragovernmental reporting while granting agencies flexibility, FMS will accept either of two formats for submission of quarterly intragovernmental data beginning first quarter fiscal 2005.

The two formats are:

- Text file format: Submissions in this format are usually downloads from agency's automated accounting systems. All text files should be sent using the Windows Notepad application, with a ".txt" filename extension.
- Excel file format: Excel submissions are more convenient for some agencies that need to modify particular records.

Regardless of which format is used, all of the elements in the table below entitled, "Quarterly 'F' Data File Submission – File Format (Input)" **must** be included except where indicated. In addition, all columns (that is, fields) should be labeled either in the heading or in a separate accompanying file with the column position numbers.

The following table is an example of an agency's data file layout. The table outlines ten required columns for Text files and nine required columns for Excel files.

Quarterly "F" Data File Submission – File Format (Input)

Field Name	Length	Туре	Choices	Description
Department Code	2	Text		Treasury Department Code
				associated with the adjusted trial
				balance fund group and consistent
				with the MAF ATB Code
Bureau Code	2	Text		Bureau Code associated with the
				adjusted trial balance fund group and
				consistent with the MAF ATB Code.
				Use "00" if the agency does not have
				any subdivisions.
Fund Group	4	Text		MAF Fund Group
USSGL Account	4	Text		USSGL Account Number
Federal/Non-Federal	1	Text	F	Federal/Non-Federal Indicator (use
<u>Attribute</u>				only "F")

Field Name	Length	Type	Choices		Description	
Federal Trading Partner	2	Text	,		Treasury Department Code of	
					Federal Trading Partner	
Sign Indicator	1	Text	•	"-" or	Standard letter/symbol to indicate	
(Required Only for			60	'D" &	debit or credit. Note: for Excel files,	
Text Files)				"C"	a negative sign is considered part of	
					the Amount field.	
Dollar Amount	17	Numeric	N	umeric	Text files : Leading zeroes required.	
Agencies must indicate					Last two positions assumed decimal.	
in the e-mail whether	(Length requirement for Text		r Text	Excel Files: Amounts must be		
amounts are presented	files only)			presented in a numeric or currency		
as Normal or Standard					format without leading zeroes and	
balances – see Notes on				with the negative sign as applicable.		
Dollar Amounts, below					If no decimal point is displayed the	
					amount is considered to be rounded	
					to the nearest dollar.	
Exchange/Nonexchange	1	Text	X or T		Exchange/Nonexchange Attribute	
<u>Attribute</u>			(where			
			applicable)			
<u>Duplicate Partner Code</u>	1	Text	"R" (where		Attribute for certain reporting	
Identifier (DPCI)			applicable)		entities, which use duplicate 2-digit	
					Department Codes.	

Other Required Information to Accompany Agency Submission

The following information, discussed elsewhere in this document, must be accompanied with the quarterly data file submission. This information may be provided in the body of the e-mail or in a separate Word document:

- Column/field heading titles, if not provided in the file itself (for text files it may not be practical to place them within the file).
- State whether the amounts are provided as Normal or Standard balances.
- Agency point of Contact for any technical problems with the data file.

In lieu of the above requirements, Federal program agencies also have the option of submitting the Agency Quarterly Intragovernmental Data File Submission Checklist (see Appendix J). Please prepare this checklist in accordance with the instructions indicated on the form and submit, along with your "F" data file, to your respective Intragovernmental Review Accountant.

Processing Notes

Note: Federal agencies use a variety of accounting systems and database applications. The following guidelines will assist agencies in developing the database structure. Unlike the previous FACTS I process, agencies will not upload bulk files via GOALS II or any other FMS on-line systems. Rather, the verifying agencies must use standard e-mail for sending the

quarterly data files. The Intragovernmental Reporting and Analysis System (IRAS) will then upload each agency's individual data file.

- The data file can contain multiple departments, bureaus, and fund groups.
- The text or excel file format is defined based upon currently designated attributes. Additional attributes may be added at a future date. For agencies that submit text files, they may wish to add filler at the end of the record and increase the record length to provide for future attributes. FMS can accept files with longer records if the defined fields conform exactly to the specified format.
- Decentralized agencies should consolidate all submissions from sub-agencies departments, or bureaus. Also, the resulting consolidated file format and data layout must be consistent.
- Descriptions and definitions of USSGL account attributes and the domain values of the attributes are published in the I TFM 2-4700 release S2-05-01 (available to readers on the Internet Web site at http://fms.treas.gov/ussgl/current.html).
- Edits for duplicate records are conducted based on a key consisting of department code, bureau code, fund group, USSGL account, Federal/Non-Federal attribute, Federal trading partner, and exchange/nonexchange attribute. Additional validations also are conducted. FMS will return any exceptions via e-mail to the agency for correction. The agency must return corrected entries within 1 business day.
- Indicate in the transmission e-mail the total number of records in the agency's data files and whether the dollar amounts are presented as "Normal" or "Standard" balances, and whether the last two positions are cents (see Notes on Dollar Amounts, below).

Notes on Dollar Amounts

As noted above, verifying agencies must indicate whether the dollar amounts are presented as "Normal" or "Standard" balances. Also, as noted, leading zeroes are required for text files but are not to be used for Excel files. For Text files, both the **Sign** field and the **Amount** field are combined when considering Normal and Standard balances. These terms are defined as follows:

- Normal balance: All amounts which are reported as their normal balance are to be shown with a **positive** sign. All abnormal balances are to be shown with a **negative** sign. The only exceptions are for accounts which do not have a normal balance, such as amortization of discount and premium.
- Standard balance: (previously referred to as "trial-balance") all balances, whether normal or abnormal, are shown with their respective sign, similar to how they would appear in a standard trial-balance report.

Verifying agencies must also indicate whether the last two positions of the amount field are cents.

The following table demonstrates several examples between the two methods. Note: in the examples the **Sign** field and the **Amount** field are combined.

			IRAS Presentation		
USSGL Account	Normal or Abnormal	Amount	Normal Method	Standard Method	
2110 (Accounts Payable)	Normal	\$100	\$100	-\$100	
2110 (Accounts Payable)	Abnormal	\$100	-\$100	\$100	
1310 (Accounts Receivable)	Normal	\$100	\$100	\$100	
1310 (Accounts Receivable)	Abnormal	\$100	-\$100	-\$100	
5310 (Interest Revenue)	Normal	\$100	\$100	-\$100	
5310 (Interest Revenue)	Abnormal	\$100	-\$100	\$100	
6100 (Expense)	Normal	\$100	\$100	\$100	
1613 (amortization)	NA	-\$100	-\$100	-\$100	
1319 (Allowance for loss on Receivables)	Normal	\$100	\$100	-\$100	

Notes for Excel File Submissions:

Data formatting: All data, with the exception of the "Amount" column, must be in "Text" format. For example, without Text formatting, Fund code "0990" will appear as "990." To achieve Text formatting, perform the following procedure **before** entering data in the Excel worksheet:

- 1. Select the entire column(s) with the mouse (for example, column "F" or columns "A-G")
- 2. Click "Format" from the menu bar.
- 3. Select "Cells" from the "Format" sub-menu.
- 4. Under "Category" select "Text".
- 5. Click "OK".

Homogeneous rows: An Excel file submission must be in the form of a data table. Therefore, all rows, after the header row, must contain the same type of information with no breaks (that is, no empty rows). For example, there should be no totals, subtotals or subheadings in the data file. Additionally, after the last row of data and after the last column of data in each record, there should not be any entries in the Excel worksheet. See Illustration 2, below for an example of a properly prepared Excel file submission.

Illustration 1: Example of a Text File Submission

(Headings would appear in a separate attachment.)

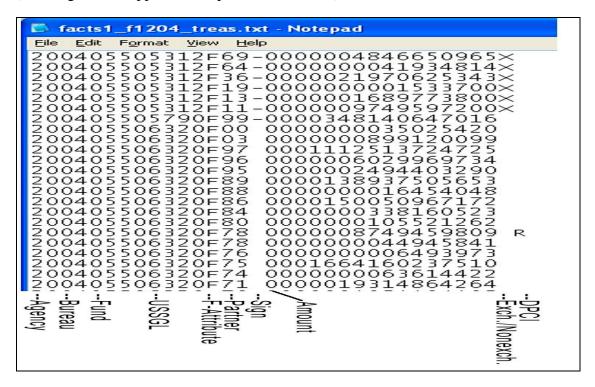

Illustration 2: Example of an Excel File Submission

Duplicate Partner Code Identifier (DPCI)

The DPCI is a single-digit code to be applied only to a reporting trading partner agency sharing a 2-digit agency code with another agency. The DPCI field is blank for all other trading partner agencies. The rules for using the DPCI identifier are contained in the following:

If the Trading Partner Agency is	Then Apply Partner Code	DPCI Code is	Notes	
Pension Benefit Guaranty Corporation	16	R (formerly P)	Leave DPCI field blank for	
(PBGC – Agency Code 1602)		·	Department of Labor (16).	
Smithsonian Institution	33	R	Leave DPCI field blank for all	
(Agency Code 33)			other Agency "33" entities, such	
			as the JFK Performing Arts	
			Center.	
Farm Credit System Insurance	78	R	Leave DPCI field blank for Farm	
Corporation (FCSIC)			Credit Administration (78).	
(Agency Code 7802)				
Any other future reporting agency	[2-digit partner code]	R	Leave DPCI field blank for the	
sharing a 2-digit agency code with a			non-reporting agency.	
non-reporting agency				

Note: "R" indicates that partner codes 16, 33, and 78 refer to the Pension Benefit Guaranty Corporation, the Smithsonian Institution, and the Farm Credit System Insurance Corporation, respectively (as opposed to other Federal entities that share the same 2-digit agency codes).

Quarterly Status of Disposition Certification

Each verifying agency will receive a *Material Differences/Status of Disposition Certification Report* from IRAS containing reporting between the agency and its trading partners by reciprocal category (Refer to Appendix C). FMS will provide an attachment for agencies to explain in detail their reporting on material differences (Refer to Appendix H).

The *Material Differences/Status of Disposition Certification Report* will allow agencies to identify differences with trading partners excluding "00" and "99" by reciprocal categories (excluding RC 25 and RC 29) that are greater than or equal to a respective reconciliation assurance level. This level will be systematically established in IRAS using four functions for fiscal year 2005:

- Obtaining sufficient explanation of out-of-balance condition.
- Obtaining assurance that agencies are performing quarterly intragovernmental reconciliation in accordance with OMB Bulletin No. 01-09, Form and Content of Agency Financial Statements, dated September 25, 2001.
- Ensuring agencies are mutually completing Status of Disposition Certification for the same trading partner/reciprocal category material difference instances.
- Minimizing the number of differences subject to certification through a sampling process.

Verifying agencies should provide an explanation of their reporting on the Status of Disposition Certification form (Appendix C) and submit it to the agency's respective FMS intragovernmental contact person via fax to 202-874-9907. This report is due no later than August 5, 2005, for the third quarter fiscal year 2005, and October 27, 2005, for the fourth quarter fiscal year 2005.

Note: Agencies that have recurring differences with a trading partner will continue to receive a *Material Differences Report* that must be explained and certified.

Detailed Quarterly Status of Disposition Certification Instructions

For fiscal year 2005, verifying agencies are required to provide an explanation of their reporting based on each identified difference in terms of the following categories: (1) Confirmed Reporting, (2) Accounting Methodology Difference, (3) Accounting/Reporting Error (4) Timing Difference – CY, (5) Unknown, (6) Timing Difference – PY. Documented support must be included in detail for each explanation on the supplemental attachment provided by FMS. (Refer to Appendix I)

FMS also will provide agencies with the *Comparative Status of Disposition Report*. This report will compare amounts reported between each reporting agency and its trading partner. FMS will generate and send this report to agencies no later than, August 10, 2005, for the third quarter fiscal year 2005, and October 31, 2005, for the fourth quarter fiscal year 2005. (Refer to Appendix D for a list of scenarios).

Intragovernmental Fiduciary Confirmation System

The Intragovernmental Fiduciary Confirmation System (IFCS) is an internet-based system for reconciling fiduciary transactions. OMB designates the IFCS as the system of record for reconciling and confirming fiduciary balances between trading partners and central fiduciary agencies (BPD, FFB, OPM and DOL).

Agencies must use the IFCS to reconcile and confirm balances and activity with their trading partners on a quarterly basis. Agencies must ensure that amounts entered into the IFCS agree to their quarterly submission, annual Closing Package reporting, and the agency's audited financial statements before submitting yearend data to FMS.

In order to facilitate reconciliation, FMS will provide agencies with the following reports:

- (1) Quarterly Data vs. IFCS Agency Benefits
- (2) Quarterly Data vs. IFCS Funds (Investments & Borrowings)

To access and confirm fiduciary balances in the IFCS, agency users should access the Internet Web site at http://www.fmsapps.treas.gov/ias.

To gain access to the IFCS, all agency users and back up personnel must submit an External GOALS II Enterprise System Access Request Form (ESAAS) by fax to the Financial Reports Division, Attention: Lena Lewis at 202-874-9907. The ESAAS form is located on the IRRI Web site at http://fms.treas.gov/irri/index.html. All agencies must designate agency user backups for all roles.

After the ESAAS form is processed, the IFCS administrator will make the agency assignment. The agency department administrator will then assign the designee to his or her specific agency

fund symbols for the borrowings and investment categories and agency code for OPM and DOL categories. The designee will receive their User ID and password by mail.

All users of the IFCS application must re-certify their role annually and attest to FMS' IT Security Rules of Behavior Standards. Re-certification focuses on re-verifying each user's need for access and that level of access to FMS' IT resources, as required by the Federal Information Security Management Act of 2002 (FISMA). The supervisor of each IFCS user will receive a form to complete and sign for the re-certification process.

Yearend Intragovernmental Reconciliation Process Related to Closing Package Reporting

FMS will use the Closing Package intragovernmental data (submitted by verifying agencies as part of their Closing Package) in order to issue reports to the verifying agencies. On November 21, 2005, FMS will issue the following Intragovernmental Reporting and Analysis System (IRAS) reports that show agencies their reciprocal balances, as reported in the Closing Package, for each of their trading partner agencies:

- Intragovernmental Closing Package Activity Detail Report;
- Intragovernmental Closing Package Activity Summary Report;
- Intragovernmental Closing Package Reciprocal Category Detail Report;
- Intragovernmental Closing Package Reciprocal Category Summary Report;
- Intragovernmental Closing Package Material Differences/ Status of Disposition Certification Report;
- Intragovernmental Closing Package vs. 4th Quarter Submission Comparative Data Report.

FMS will e-mail the reports to the verifying agencies and will subsequently make these reports available to users on the Intragovernmental Reconciliation Resources and Initiatives (IRRI) Web site at http://www.fms.treas.gov/irri/index.html. Agencies should use these reports to work with their trading partners to reconcile reciprocal Closing Package differences. Any significant changes that are reconciled should form the basis for adjusting journal entries affecting intragovernmental activity and balances.

On November 29, 2005, FMS will distribute the IRAS-generated *Intragovernmental Comparative Closing Package Explanations of Differences Report* to the reporting agencies and their IGs.

CFO Representations for Federal Intragovernmental Activity and Balances

Verifying agencies are required to represent that they have properly and completely reconciled their intragovernmental activity and balances with their trading partners, using the Closing Package submission and agency audited financial statements. This requirement is outlined in I TFM 2-4700 Section 4705.70.

For fiscal year 2005, FMS will provide a standard form that agencies will use to complete the CFO representations. FMS will post this form on the IRRI Website, (http://www.fms.treas.gov/irri/index.html) for download in Microsoft Excel format. The CFO Representations form is also included at the end of this document as **Appendix E**. The representations relating to whether the reconciliation was completed for items from Section I (General Intragovernmental Reporting Results) and Section II (Explanation of Closing Package Differences) must be completed in its entirety.

IG Agreed Upon Procedures for Federal Intragovernmental Activity and Balances

Verifying agencies should use the IG Agreed Upon Procedures, included in the TFM (Section 4705.75, to assist with auditing Intragovernmental activity and balances in the preparation of agency and Governmentwide financial statements and reports. IGs must perform these procedures regardless of the audit opinion on the agency consolidated financial statements.

For fiscal year 2005, agencies will use a standard form to complete the IG Agreed Upon Procedures for Federal Intragovernmental Activity and Balances (**Appendix F**).

POLICIES

Accounting

Intragovernmental transactions should be accounted for consistently, in accordance with Generally Accepted Accounting Principles (GAAP), by both the providing and receiving agencies. Agencies should maintain transaction logs or detailed records of transactions as a part of their accounting systems to provide a means of identifying the postings to USSGL accounts and to facilitate the reconciliation process. The transaction logs (or detail) should include enough information to enable easy identification and location of the supporting documentation. Refer to OMB Memorandum M-03-01, dated October 4, 2002, for additional guidance and standardized business rules.

USSGL Account Attributes

The Federal ("F") and Non-Federal ("N") attributes used in conjunction with a USSGL account in the Closing Package submission provides information that enables FMS to prepare elimination entries for the Governmentwide Financial Report The attribute is used to identify the nature of the account balances and to identify intragovernmental transactions. When the Federal attribute "F" is used with a USSGL account, a 2-digit trading partner must also be designated for each transaction posted to the account.

Asset Accounts

Asset accounts related to inventory, property, and equipment are submitted to FMS with a Non-Federal "N" attribute. This attribute is being used as a mechanism to communicate that these particular asset accounts of individual agencies are also assets of the Federal government as a

whole, regardless of whether the assets were purchased from the public or another Federal agency. These assets are not eliminated in the consolidation process.

Related USSGL memorandum accounts 8801 and 8802 were established to record capitalized purchases and to be used in the elimination process (trading partner identification is associated with these accounts.)

Trading Partner Codes

In order for proper eliminations to occur, it is essential that accurate trading partner data is captured for intragovernmental activity and balances. Each quarter, agencies are required to use the 2-digit department code of the trading partner when reporting USSGL account balances that relate to transactions with another Federal agency ("F" attribute). For example, 1610F (20) Investments in U.S. Treasury Securities Issued by the Bureau of the Public Debt indicates that this Federal entity is posting a transaction occurring with Treasury, 20 (BPD). BPD records 2530F (XX) Securities Issued by Federal Agencies under General and Special Financing Authority, indicating a transaction with Federal entity XX. For yearend reporting to GFRS, agencies must use the 4-digit department codes that are established in the GFRS. For quarterly reporting via the extract of "F" transactions file, agencies must use the 2-digit FACTS I department codes. (See **Appendix B** for a list of trading partner codes).

Agencies should comply with the transaction posting models consistent with USSGL guidance and policies when recording and classifying transactions. Agencies should identify trading partners for all intragovernmental transactions and accumulate detail and summary information for each activity by trading partner from their accounting records.

Agencies can employ a number of methods to identify trading partners including:

- Incorporating the trading partner code as part of the account coding classification.
- Incorporating the trading partner code into data captured when transactions are entered into accounting systems.
- Communicating with the trading partner of a transaction to ensure the proper trading partner code is used.

NOTE: The U.S. Department of Agriculture's Graduate School should be classified as a Non-Federal "N" transaction; therefore, a trading partner code is not required.

Trading Partner Code "99" Reporting for the Treasury General Fund

Trading partner code "99" should be applied for recording transactions with the Treasury General Fund, as follows:

- Custodial activity, such as tax revenue, and miscellaneous revenue that is collected or accrued on behalf of the Treasury General Fund. USSGL accounts applicable to this activity include: 2980F, 5800F, 5801F, 5990F and 5991F.
- Employer FICA contributions that are collected by the Internal Revenue Service.
- Transfers out and distributions of income (e.g., USSGL account 7500F) that are returned to the General Fund.
- Governmentwide entity/custodial accounts (USSGL account 5790F) only for Treasury Bureaus: FMS and BPD.
- Fees collected for services provided and subsequently transferred to the General Fund.
- Treasury-managed Trust Funds expenditure and non-expenditure transfers receivable/payable.
- Liquidating fund assets in excess of liabilities that are transferred to the General Fund.
- Receivable from appropriations (USSGL account 1921F, Treasury only).
- Rescissions that are permanently canceled by law and Fund Balance with Treasury (FBWT) is returned to the General Fund.
- Other asset/liability activities associated with the Treasury General Fund (e.g., USSGL accounts 1325F and 2400F).

Use of Trading Partner "20" Instead of Trading Partner "99"

Trading partner "20" should be used instead of trading partner "99" under the following circumstances:

- Judgment Fund Transactions
- Transfers with Treasury Program Organizations
- Investment in Public Debt Securities
- Borrowings from BPD/FFB

• Reimbursable Activity with Treasury Program Organizations

There is a website available for Treasury Managed Accounts which can be located at http://fms.treas.gov/tma/. There, Federal program agencies can access links to reconcile activity related to:

- Contract Disputes
- No Fear Act
- Judgment Fund
- Interest on Uninvested Funds

FBWT (USSGL 1010) and Trading Partner "99"

USSGL account 1010 is defined as the aggregate amount of funds on deposit with the Treasury, excluding seized cash deposited. FBWT is increased by (1) receiving appropriations, reappropriations, continuing resolutions, appropriation restorations, and allocations; and (2) receiving transfers and reimbursements from other agencies. It is also increased by amounts borrowed from the BPD, the FFB, or other entities and amounts collected and credited to appropriation or fund accounts. FBWT is reduced by (1) disbursements made to pay liabilities or to purchase assets, goods, and services; (2) investments in U.S. securities (securities issued by the BPD or other FPA); (3) cancellation of expired appropriations; (4) transfers and reimbursements to other entities or to the general fund of the treasury; and (5) sequestration or rescission of appropriations. Under a continuing resolution, do not increase FBWT until FMS issues a warrant. Not increasing FBWT under a continuing resolution may result in a negative balance, which is acceptable by OMB and FMS.

By association, USSGL account 1010 (FBWT) is Federal in nature. However, USSGL 1010 does not have a trading partner associated with it and it does not have an offset for reconciliation purposes. Therefore, USSGL 1010 should not be reported with trading partner 99 or any other trading partner code.

Intragovernmental Business Rules

OMB released guidance in the form of "Business Rules" for intragovernmental transactions to agency heads on October 4, 2002. These rules reference fiduciary and non-fiduciary transactions and are intended to address major elements of the intragovernmental material weaknesses, as identified by GAO, during the audit of the Financial Report (FR). For detailed information, agencies may refer to OMB guidance (*FY 2003 Memorandum - M-03-01*) on OMB's Website at: http://www.whitehouse.gov/omb.

FIDUCIARY TRANSACTIONS

General Guidance

- The system of record for confirming and reconciling fiduciary balances between trading partners and central fiduciary agencies is the Intragovernmental Fiduciary Confirmation System (IFCS).
- Agencies are required to confirm intragovernmental balances (enter and provide explanation for differences) with central fiduciary agencies in the IFCS for all five fiduciary categories.
 These categories are the Bureau of Public Debt Investments and Borrowings, Federal Financing Bank Borrowings, Department of Labor and Office of Personnel Employee Benefits.

BPD Investments

For intragovernmental investments with the Bureau of the Public Debt (BPD), BPD and trading partner agencies will use the effective interest method for amortization on market-based notes, bonds, and zero-coupon bond securities. BPD and the trading partner agencies will continue to use the straight-line method for market-based bills. There are three provisions that apply to investments with BPD: (1) Amortization of market-based premiums to call date, (2) Held-to-maturity vs. Available-for-sale, and (3) Inventory relief method for redemptions prior to maturity.

BPD and FFB Borrowings

 For borrowings from the Bureau of the Public Debt (BPD) and borrowings from the Federal Financing Bank (FFB), agencies will report amounts consistent with those reported by these central fiduciary agencies.

OPM Employment Benefits

The Office of Personnel Management (OPM) provides "cost factors" for the Federal civilian benefit programs. Agencies will use these cost factors to calculate their imputed costs relating to the Civil Service Retirement System (CSRS), Federal Employees Retirement System (FERS), Federal Employees Health Benefit (FEHB) and the Federal Employees Group Life Insurance (FEGLI) programs. The "pension" and life insurance cost factors are provided as percentages of basic pay, whereas the health benefits cost factor is stated as a dollar amount per FEHB enrollee. The cost factors are provided by September 15th of each fiscal year reporting period.

OPM Employment Benefits are classified into three distinct components, with each impacting financial reporting differently:

- 1. <u>Employer contributions</u> This is intragovernmental activity and must be classified to "USSGL 6400 and reported with an"F.24" attribute; the IFCS confirmations are based on this activity.
- 2. <u>Employee contributions</u> This is non-federal activity and must be reported with an "N" attribute. This activity is normally included in gross pay and classified to USSGL 6100.
- 3. <u>Imputed costs</u> This activity is classified as both an imputed cost (USSGL 6730) and an imputed financing source (USSGL 5780) by the reporting agency. The imputed cost and imputed financing source must be reported in equal amounts with "F.24" attributes.

Department of Labor FECA Transactions

 The Department of Labor (DOL) will provide revenue and receivables for each agency, which FMS will upload into the IFCS each quarter. Agencies must report the DOL provided amount as expenses/payables on their financial statements.

NON-FIDUCIARY TRANSACTIONS

- Federal agencies must obtain and register the Dun and Bradstreet Universal Numbering System (DUNS) as unique business location identifiers (not associated with the Agency Location Code) in the Central Contactor Registration (CCR) database.
- The Business Rules for non-fiduciary transactions are effective for all intragovernmental purchases of goods and services at the established threshold level with the exception of (1) purchase card acquisitions, (2) national emergencies, and (3) national security considerations.
- Refer to OMB Business Rules for Intragovernmental Exchange Transactions for further information regarding advances for reimbursable orders, billing documentation, unbilled accounts receivable, and general buy/sell business practices.
 (M-03-01, Business Rules for Intragovernmental Transactions, Attachments A, A1, and A2).

Yearend Procedures

At the end of each fiscal year (September 30), all transactions and activity related to the fiscal year should be recorded in each agency's general ledger. Agencies should correspond with their trading partners to ensure consistency in recording intragovernmental transactions. Agencies will need to work together to identify the transactions and amounts in determining the estimated accruals to record. (For guidance, refer to OMB FY 2003 Memorandum - M-03-01).

Transactions Related to Revenues Earned/Expenses Incurred as of September 30 that Occurred Subsequent to Yearend

Transactions that are incurred as of September 30 and not billed should be recorded as accruals in both agencies' records. These transactions may have been billed subsequent to year-end or remain unbilled at the time of accrual. Providing agencies should identify these transactions and should work with the receiving agencies to provide detailed information supporting the transactions and the amounts incurred as of the cut-off date (September 30) and not yet billed. The providing agency should record these transactions as receivables/revenues as of September 30. The receiving agency should record these transactions as payables/expenses or assets as of September 30.

Agencies should work together to calculate and estimate accruals and to record corresponding entries in each set of records so they are in agreement or that long term accounting policy differences can be easily identified. The providing agency is typically responsible for estimating the accrual and communicating this information to the buying agency. Both agencies are responsible for recording the information.

The following are the cut-off procedures to be performed by the providing and receiving agencies for September 30 (year-end).

Reconciliation

The integrity of the data reported in each agency's financial records and reports as well as the data reported in agency's audited financial statements and in the Closing Package are dependent on timely and accurate reconciliations of intragovernmental activity and resulting account balances.

The responsibility for the reconciliation of an agency's activity and balances is with the agency, regardless of the trading partner's involvement in the transactions. Responsibility for the individual account reconciliations within an agency is based on the agency's organizational structure and delegation of responsibilities. Reconciliations should be reviewed and approved by the appropriate agency designated personnel.

Agencies are required to use the IFCS to confirm and reconcile fiduciary transactions with their trading partners. Agencies should investigate and record adjustments for any discrepancies between their intragovernmental account balances and the reciprocal account balances of their trading partner(s). Discrepancies due to errors should be adjusted in the agency's records and corrected prior to the preparation of financial statements and the Closing Package submission.

Reconciliation Requirements

Agencies should reconcile and confirm intragovernmental activity and balances with their trading partners before submitting year-end data to FMS and reporting it in the agency's audited financial statements.

Specifically, OMB requires reporting agencies to reconcile/confirm activity and balances for intragovernmental fiduciary transactions quarterly with central fiduciary agencies in the following reciprocal grouping, through the IFCS.

- <u>Investments</u>—Includes interest accruals, interest income and expense and amortization of premiums and discounts with the Bureau of the Public Debt.
- <u>Borrowings</u>—Includes interest accruals, interest income and expense from the Bureau of the Public Debt or Federal Financing Bank.
- Federal Employees' Compensation Act transactions with DOL Includes

routine payments and accruals for actuarial liabilities.

• <u>Employee Benefit Program transactions with OPM</u>—Includes routine payments and post-retirement benefits related to the Federal Employees' Retirement System (FERS), the Civil Service Employees' Retirement System (CSRS), the Federal Employees' Life Insurance Program, and the Federal Employees' Health Benefits Program.

Reconciliation Process

The suggested methodology for reconciliations is as follows:

- 1. Determine the reconciliations required by OMB Bulletin No. 01-09, Form and Content of Agency Financial Statements, dated September 25, 2001, as amended and FMS' I TFM 2-4700.
- 2. The receiving agency compares its balances to the appropriate reciprocal category balances of the providing agency. This can be facilitated through FMS' IRAS Reports.
- 3. The receiving and providing agencies identify differences and reconcile their intragovernmental accounts balances.
- 4. For fiduciary transactions, the fiduciary entities (BPD, FFB, DOL and OPM) will make account balance information and other details available through the IFCS for the receiving agencies to reconcile amounts to their records. Specific procedures for these reconciliations are discussed below.
- 5. For other intragovernmental transactions, agencies should work together to establish the data needs and availability to facilitate the reconciliations.¹

Fiduciary Transaction Reconciliation Procedures

An authorized agency official should review the agency's reconciliation documents. Agencies should also have written standard operating procedures to direct and document the reconciliation process. Agencies are responsible for ensuring that the reconciled and agreed upon confirmed balances are reported in the IFCS, the Closing Package, and in the agency's audited financial statements. If adjustments are made subsequent to the completion of the confirmations (during the audit process), agencies should revise reconciliations and confirmations and submit the updated data to FMS.

The following are fiduciary transaction procedures:

¹ Agencies should be sensitive about transmitting intragovernmental classified data.

Investments in Treasury Securities with BPD

During October, BPD account balances as of September 30 will be available in the IFCS for all agencies investing in Government Account Series securities to reconcile and confirm. This confirmation will include accrual data and will be used to reconcile agency USSGL account balances and activity with BPD reporting. The Federal Investments Account Statements and other related information are available on BPD's website at http://federalinvestments.gov/. BPD personnel will be available at (304) 480-5151 for questions regarding this reporting. Questions regarding FACTS I and agency reporting should continue to be directed to FMS.

Borrowings from Treasury (BPD and FFB)

Reconciliation of amounts borrowed: At the end of each month, FMS forwards to BPD a copy of its Borrowings Query (STAR generated) report with the month end loan balances. The Borrowings Query report can be used by BPD to reconcile ending loan balances with information maintained by FMS. Lending agency (BPD) should reconcile its SF1151 (Nonexpenditure Transfer Authorization) subsidiary ledger to the FMS generated Borrowings Query. Differences identified by this reconciliation are resolved by BPD. In addition to reconciling with FMS, BPD and FFB will confirm outstanding loans receivable balances as of September 30, with partner agencies. BPD and FFB account balances as of September 30 will be available in the IFCS in October for all agencies to reconcile and confirm borrowings from BPD and FFB.

Reconciliation of interest paid and accrued: The interest calculations for certain loans accounted for by BPD and FFB are extremely complex, particularly those related to loans made under the Federal Credit Reform Act. For borrowings with FFB, the FFB calculates interest due on federal agency borrowings (agencies may verify interest computations on the borrowings.) For borrowings with Treasury (BPD), the borrowing agencies compute interest and BPD verifies any discrepancies. The program agencies are charged with providing the lending agency with information detailing their calculation of interest expense for the fiscal period. These calculations will be used to substantiate the amounts reported on the SF1081 (Voucher and Schedule of Withdrawals and Payments), which will in turn be used to post the interest received. Borrowing and lending agencies should confirm and reconcile interest amounts at the end of each fiscal year.

Reconciliation of principal and interest between BPD and the borrowers: The borrowing agency must confirm and reconcile the principal USSGL account balance with the borrower's reciprocal USSGL account balance in the IFCS. Agencies that identify a difference in the account balances should contact the BPD representative. If the agency's records do not agree to the BPD report, the agency should provide an explanation and or reconciliation, as applicable, for the differences. The USSGL account balances to be reported in the agency's audited financial statements and in the Closing Package must also be submitted. This information will assist FMS in properly eliminating intragovernmental balances.

Reconciliation of principal and interest between FFB and the borrowers: The borrowing agency must confirm each FFB USSGL account balance with the borrower's reciprocal USSGL account balance in the IFCS. Agencies that identify a difference in the account balances should contact the FFB representative. If the agency records do not agree to the FFB report, the agency should provide an explanation or reconciliation, as applicable, for the differences. It is critical that the account balances reported on the confirmation are the same amounts reported in the agency's audited financial statements and in the Closing Package submission to FMS. This information will assist FMS in properly eliminating intragovernmental balances.

FECA Transactions with DOL

The liability amounts (including year-end accruals) for the fiscal year ended September 30 will be available in the IFCS during October. Agencies should provide the balances in the following Intragovernmental accounts in the IFCS:

6400F Benefit Expense

6850F Employer Contributions to Employee Benefit Programs Not Requiring Current-Year Budget Authority

2225F Unfunded FECA Liability

2215F Other Post-Employment Benefits Due and Payable

For the above accounts it is critical that only those balances associated with the Federal Employees' Compensation Act are reported in the IFCS. You should exclude amounts relating to unemployment compensation. USSGL accounts 2650N and 7600N are not reported in the IFCS.

DOL will compare the amount your agency reports for accounts 6400F and 6850F to the amount recorded for your agency in DOL account 5400F - Benefit Program Revenue. The balance reported for your agency accounts 2225F and 2215F will be compared to the amount recorded for your agency in DOL account 1320F – Employment Benefit Contributions Receivable. If this comparison reveals material differences, DOL will contact the departmental contact to resolve the difference(s). Agencies will be expected to provide information to explain and reconcile any differences.

It is critical that the account balances reported on the confirmation equal the amounts reported in the agency's audited financial statements and in the Closing Package submission to FMS.

Annually, during the month of September, the Department of Labor's Chief Financial Officer sends a memorandum (with attachments) to the Chief Financial Officers of Executive Departments and Agencies subject to the CFO Act of 1990, GMRA Act of 1994 and the Accountability of Tax Dollars Act of 2002, which transmits the unaudited estimated FECA actuarial liability for the fiscal year ending September 30. For comparative purposes, the amounts for the preceding fiscal year are also presented. In addition, the Department's Office of the Inspector General issues the results of their audit of the Federal Workers' Compensation (FWC) liability during the month of October for the preceding fiscal year ending September 30. The audit report contains a schedule of actuarial liability by federal agency. Agencies are to

report the FECA actuarial liability and changes in FECA actuarial liability in USSGL accounts 2650N and 7600N, respectively. DOL does not have corresponding accounts for agency accounts 2650N and 7600N.

Employee Benefits Transactions with OPM

Employee Benefit Program transactions are separated into three categories - health, retirement, and life – and should be reconciled individually. The Employment Benefit Contribution Receivable and Benefit Program revenue figures for the fiscal year ended September 30 will be available in the IFCS in October. Agencies are required to provide the balances in the following intragovernmental accounts on the "Confirmation of Intragovernmental Account Balances" in the IFCS.

2213F Employer Contributions and Payroll Taxes Payable 6400F Benefit Expense

For account 2213F, agencies should only report balances related to the Federal civilian benefit programs (i.e. government contributions for Retirement, Health Benefits, and Life Insurance transactions) in IFCS.

OPM will compare the agency reported account 2213F balance to the amount recorded for the agency in OPM account 1320F Employment Benefit Contributions Receivable. The balance reported for agency account 6400F will be compared to the revenue recorded for each agency in OPM account 5400F - Benefit Program Revenue. If this comparison reveals material differences, OPM will notify the departmental contact to resolve the difference(s). Agencies will be asked to provide information to explain and reconcile any differences.

Non-Fiduciary Transaction Reconciliation Procedures

OMB requires verifying agencies to reconcile/confirm intragovernmental activity and balances quarterly with trading partners, resulting from non-fiduciary transactions, for the following reciprocal groupings (examples are not all inclusive).

- <u>Assets</u>—includes accounts receivable, advances to others, other assets.
- Liabilities—includes accounts payable, advances from others, other liabilities.
- Revenue—includes services, products, and goods provided to others.
- <u>Expenses</u>—includes operating expenses and future funded expenses.

RECONCILIATION DIFFERENCES

Even when both verifying agencies' accounting records are accurate and current, there may be identifiable differences between the two records (the reconciliation should show that both sets of records equal each other). Analyzing and determining the nature of the differences will require agencies to work together to exchange detailed information and other accounting records. It will also require agencies to understand each other's accounting procedures for identifying and recording transactions related to the activity. Differences identified during the quarterly reconciliation process should be adjusted in the subsequent period for accounting errors and current year timing differences. During the fourth quarter reconciliation process, Federal program agencies should make any adjustments before financial statements are issued. If adjustments are identified after financial statements are issued, Federal program agencies should notify Treasury (FMS). In turn, FMS will determine the impact of these adjustments to the Governmentwide financial statements. Agencies should refer to OMB guidance (FY 2003 Memoranda -M-03-01) for a listing of business rules to be observed when engaging in intragovernmental exchange activity, (www.whitehouse.gov/omb/memoranda).

The following are discussions of common and potential differences resulting from the initial reconciliation and the recommended adjustments to be made to prepare the final reconciliation. For guidance, refer to Appendix I, *Explanation of Differences*.

Beginning Balances Differences (Timing Difference- Prior Year)

These differences will be in the beginning balances of balance sheet accounts. The materiality of the differences should be evaluated by each agency's CFO and IG relative to its financial statements. If the amounts are not material for either agency, the agencies should agree on adjustments to be made to correct the asset and/or liability balances. These adjustments could result in differences in revenue/expense accounts for the reconciliation period. These differences should be clearly identified and quantified on the reconciliation form. If differences are material, the agencies should analyze the historical data and try to identify the transactions causing the differences. Once identified, the proper adjustments should be made by the appropriate agency.

Timing of Recording Accruals (Timing Difference- Current / Prior Year)

In some cases, when a providing agency generates bills for services or when IPAC transactions are batch processed subsequent to the end of the period, there may be differences in activity and balances due to the timing of the receiving agency recording the transactions. Timing differences can also be caused by a receiving agency delay in reclassifying IPAC

transactions into the proper accounts. IPAC reports and bills subsequent to the accounting period should be identified and reviewed, and the appropriate adjustments should be made in the proper accounting period. Adjustments should be made to accounts receivable/accounts payable for bills received after the end of the period that applies to the period. Agencies should communicate with each other to identify these timing differences.

Estimated Accruals (Accounting Methodology Difference)

In some cases, either the providing or receiving agency, or both, records an estimated accrual (receivable or payable) at the end of the period. If only one agency involved in a transaction has recorded the accrual, the other agency will need to record a corresponding amount in its records if the goods/services were received. If the accruals were calculated separately and differently, the agencies should work together to determine a methodology for both to use to ensure the same amount is recorded on both sets of records.

In cases where goods/services were not received (by the receiving agency) and the providing agency recorded unbilled revenue, these amounts should be identified as reconciling differences.

<u>Unrecorded Transactions (Accounting / Reporting Error)</u>

Other causes of differences may be due to unrecorded transactions. Agencies should exchange detailed records and work together to analyze the data and identify differences attributable to unrecorded transactions. Agencies should also review IPAC reports and determine whether any transactions were not reclassified into the proper accounts. All differences should be identified and adjustments should be made in the appropriate agency's records.

Other Differences (Accounting /Reporting Error)

There can be differences between receivables and payables between verifying agencies due to disputes, misunderstandings, or other issues. Verifying agencies should work together to resolve these types of issues. Adjusting entries should be recorded in the accounting records so amounts are in agreement. If verifying agencies cannot resolve the issues, there will be a difference. This should be clearly identified and explained on the reconciliation.

Accounting Policy Differences (Timing Difference- Prior Year)

There may be circumstances where differences cannot be resolved in the current accounting period. In these circumstances, verifying agencies should work together to understand and document the reasons for the differences. Where possible, verifying agencies should use

consistent accounting treatments in these circumstances to eliminate any differences. Any differences that remain should be clearly explained on the final reconciliations/confirmations and quantified to the extent possible. The following are examples:

- DIFFERENCES IN ACCOUNTING STANDARD REQUIREMENTS:
 (Accounting Methodology) Certain differences may be due to different accounting methods allowed by accounting standards. An example of this is the amortization of discounts and premiums. If one trading partner amortizes discounts/premiums using the interest method and the other trading partner uses the straight-line method, there will be an accounting policy difference.
- BASIS OF ACCOUNTING: (Accounting Methodology) Certain differences may
 arise due to agencies using a different basis of accounting for reciprocal
 transactions. An example of this would be with the accounting for inventory. If a
 receiving agency inventories supplies and materials at average cost, there may be
 difficulty reconciling to the amount reported as sales by the providing agency.

Another example is sales under a long-term contract (greater than a fiscal year). If a providing agency uses the completed contract method to recognize sales on manufactured goods (and does interim shipments of goods as completed) and the receiving agency recognizes the expense (or assets) as received, there would be a difference between the sales recorded by the providing agency (deferred credits should be recorded) and the expenses recorded by the receiving agency.

Verifying agencies should make adjustments for all resolvable differences. When the final reconciliation is completed they should provide an explanation of their reporting based on each identified difference. Refer to Appendix H- *Additional Explanations* for a sample of the supplemental attachment.

For purchases/sales of goods and services, buyers and sellers should reconcile intragovernmental activity and balances by processes that result in:

- Seller revenue and deferred revenue amounts (and other amounts in the sellers balance sheet) reconciling with
- Buyer cost and prepaid amounts (and other amounts in the Buyer's balance sheet)

Consolidation/Elimination

The primary focus of this guide is on transactions occurring between and within Federal verifying agencies. Verifying agencies prepare department wide consolidated financial statements and will prepare elimination entries for intragovernmental transactions within the verifying agencies based on this financial information. This guide does not include examples for elimination entries within verifying agencies. Agencies should develop procedures providing for the accurate and complete elimination of transactions occurring within the agency in their consolidated financial statements.

Reporting

Financial reports should be prepared in accordance with OMB Bulletin No. 01-09, Form and Content of Agency Financial Statements, dated September 25, 2001. All transactions should be recorded and reported in the proper USSGL accounts. All USSGL accounts should be reported in accordance with the financial statement crosswalk(s) provided in this guide and the USSGL guidance on the FMS website.

As indicated in the Federal Accounting Standards Advisory Board (FASAB) Implementation Guide to Statement of Financing in Statement of Federal Financial Accounting Standards 7, agencies are to recognize and reflect costs associated with exchange revenue on the Statement of Net Cost and to recognize and reflect cost associated with non-exchange revenue on the Statement of Net Position. To facilitate proper reporting, agencies are required to designate the portion of expense captured as pertaining to exchange, or non-exchange revenue, on the appropriate financial statements in the Closing Package for yearend reporting.

Reciprocal Accounts

Each agency should be able to account for Intragovernmental transactions and accumulate related activity and balances in the appropriate USSGL accounts. The reciprocal account categories delineated in this section are to be used by agencies to account for the intragovernmental transactions. Use of these reciprocal accounts will facilitate the Quarterly Intragovernmental Transactions Reconciliation process and reconciliation as of the financial statement preparation or final reconciliation date. The trading partner activity, between two agencies, within the reciprocal accounts, should reconcile. Agencies are encouraged to work with their trading partners to determine the accounts to be used to record accounting transactions for each type of activity transpiring between the agencies.

The "Reconciliation Reciprocal Account Categories Listing" is intended to provide category descriptions for Fiduciary and Non-Fiduciary transactions. For additional guidance, refer to the

Federal Intragovernmental Transactions Categories of Reciprocal U.S. Government Standard General Ledger Proprietary Accounts table, Appendix A.

Reconciliation of Reciprocal Account Categories

Fiduciary Transactions:

RC 01: Federal Investments/Debt — (i.e., assets/liabilities related to principal, discount, premium and amortized debt).

RC 02: <u>Interest Receivable/Interest</u> <u>Payable</u>— (i.e., assets/ liabilities related to interest receivable/payable).

RC 03: Federal Securities Interest

Expense/Federal Securities Interest

Revenue — (i.e., interest revenue/expense resulting from both exchange and nonexchange transactions.)

RC 05: Borrowings and Other Interest

Expense/Interest Revenue –

(i.e., interest expense/revenue related to BPD & FFB borrowings)

RC 06: Borrowings Losses/Gains – (i.e., gains/losses on disposition of borrowings)

RC 17: <u>Loans Receivable/Payable</u>— (i.e., assets /liabilities related to BPD/FFB loans receivable/payable.)

RC 21: Benefit Program Contributions
Receivables and Payables
— (i.e., assets/liabilities related to

employee benefits receivable/payable).

RC 26: Benefit Program
Costs/Revenues— (i.e. exchange and nonexchange revenue/expense related to employee benefits)

Non-Fiduciary Transactions:

RC 18: <u>Transferred In/Out Without</u> <u>Reimbursement</u> —

(i.e., financing source transferred in/out without reimbursement).

RC 19: <u>Appropriation Transfers - In/Out</u> — (i.e., financing source and earmarked receipts transferred in/out).

RC 22: Accounts Receivable - Accounts

Payable — (i.e., assets/liabilities related to accounts receivable/payable, and other liabilities).

RC 23: Advances to Others and Prepayments/Advances From Others and Deferred Credits — (i.e., assets/liabilities related to advances, prepayments, and deferred credits).

RC 24: <u>Buy/Sell Costs/Revenue</u>—(i.e., revenue/expense related to goods sold and services rendered).

RC 25: Imputed Costs/Imputed Financing Sources

RC 27: <u>Transfers Receivable/Payable</u>—(i.e., assets/liabilities related to transfer expenditure receivable/payable).

RC 28: <u>Unexpended Appropriations</u>
<u>Transferred-In/Out</u>—(i.e., equity related to unexpended appropriations transferred in/out).

Note: RC 29 consists of USSGL accounts that do not eliminate against each other.

Examples of Accounting for and Reporting Transactions

The following are examples of the proprietary accounting entries and reporting requirements for various types of Intragovernmental transactions. Budgetary information will also need to be captured and recorded at the same time, as applicable, when the proprietary accounting entries are made. The transactions in this guide do not represent the complete accounting cycle for proprietary transactions related to the particular accounting event. (Complete scenarios of accounting events are at http://www.fms.treas.gov/ussgl). This guide only includes the parts of transactions that occur on both partner agencies' records. The guide does not include any budgetary transactions. The examples are for illustrative purposes only and do not represent actual transactions.

Currently, there are no reporting requirements for intragovernmental transactions involving "N" accounts to be recorded with a trading partner code (xx). However, agencies need a mechanism to identify and summarize these transactions as intragovernmental in order to reconcile properly. Agencies will need to report capitalized acquisitions from Government agencies in USSGL accounts 8801 and 8802.

In the applicable examples, goods recorded as assets by the receiving agency, goods recorded as supplies inventory by the receiving agency, sale of equipment, and transfers is demonstrated with the trading partner code (xx). Each example is accompanied with a USSGL account crosswalk to the financial statement presentation. In addition, credit amounts/balances are in parenthesis (-). These transactions should be reported based on the USSGL account with the corresponding trading partner code identified in accordance with USSGL Documents and Agency Reporting Requirements for the FR.

Investments in Federal Securities Issued by the Treasury Department, BPD

Federal trust fund receipts and cash balances are invested in Treasury securities through the Bureau of the Public Debt (BPD). BPD also issues federal debt securities to the public and accounts for the public debt. BPD reports this activity (in summary) to the public and other interested users in the Monthly Statement of Public Debt. Note: Treasury securities purchased by agencies through non-governmental sources, such as private brokerage firms, should be reported as non-federal (i.e. with an "N" attribute). BPD does not account for these securities.

<u>Treasury- managed trust funds</u>: Federal trust funds are created by and maintained in accordance with the various Acts and Public Laws as enacted by Congress. BPD manages certain trust funds for program agencies. The Division of Federal Investments of BPD provides accounting, investment, and financial reporting services for the trust funds. This includes managing the investments, maintaining related accounting records and supporting documentation, and preparing activity statements.

BPD is responsible for administering and monitoring the daily activities of the managed trust funds including receipts, investment and redemption activity, and calculation of interest. The trust fund program agencies are responsible for determining the nature, extent, and timing of

disbursements to satisfy the objectives of the programs financed by the trust funds. The trust fund program agencies are also responsible for reporting to FMS.

<u>Federal agency managed funds</u>: Many program agencies are responsible for trust, revolving and other funds, and manage the purchase and sale of securities from Treasury through BPD. These program agencies are responsible for determining amounts to be invested and the terms of the investments. These agencies are responsible for reconciling periodic interest income from information provided by BPD.

The transactions illustrated in the following sections apply to all intragovernmental investments.

Purchase of Investments from BPD

The purchase of an investment should be recorded at acquisition cost. The investment account should be charged with par value and a premium or discount recorded for the difference between acquisition cost and par value.

Purchased at a Discount

Bureau of the Public Debt (trading partner code 20) issues a Treasury Security to the DOL Unemployment Trust Fund (trading partner code 16), a Treasury security with a par value of \$20,000. DOL purchases the security at discount for \$19,100.

Purchase of Interest with a Security Purchased at Par Value

When a note or bond, bearing a stated semi-annual interest rate, is purchased on a date other than an interest payment date, the investing entity must purchase interest back to the last interest payment date. On the next interest payment date, the entity will receive an interest payment for the full six-month interest period. The Department of Transportation, Federal Highway Trust Fund (trading partner code 69), purchased a Treasury security at a par value of \$10,000 plus interest purchased of \$500.

Interest Income

Periodic interest payments are made to trust, revolving or other funds based on the terms of the securities. Most notes and bonds pay interest semi-annually. The following entries are to record the periodic interest paid by the Bureau of the Public Debt on a Treasury Security. The Civil Service Retirement and Disability Fund managed by OPM (trading partner code 24) received a semi-annual interest payment of \$5,000 on a Treasury security (trading partner code 20).

Providing agency Bureau of the Public Debt			Receiving agency Office of Personnel Management			ent

Interest Accruals

Interest accruals should be calculated and recorded periodically in accordance with the investing agency's accounting policies and procedures. Interest should be accrued for amounts earned and unpaid at the cut-off date. Interest accrued on September 30 must be verified by the agencies with BPD records and any material differences resolved before submission of the Closing Package.² The following are the entries to record accrued interest on investments at September

For example, an investing entity credits USSGL A/C 5311 (F), Interest Income for \$5,000 on receipt of a semi-annual interest payment. This entry assumes that no portion of the semi-annual interest payment had previously been accrued as earned. However, if the investing entity had previously accrued \$4,000 of interest earned on this investment prior to receipt of the \$5,000 semi-annual interest payment, the required entry would include a credit to accrued interest receivable for \$4,000 and a credit to interest income for \$1,000.

Agency practices for the accrual of interest and accounting for interest received or paid may vary. The illustrative entries contained in the Guide should be considered in the context of agency practice and modified if necessary. In all cases, in accounting for interest, agencies should consider the methodology they use to account for interest earned, as well as accrued interest receivable and payable balances.

The Guide includes illustrative entries for the receipt and payment of interest and recognition of accrued interest receivable and payable. These entries illustrate the accounting that would be required, on a stand-alone basis, if the entity had not previously recognized any accrued interest.

30. The Centers for Medicare and Medicaid Services (trading partner code 75) has a Treasury bond purchased from the Bureau of the Public Debt (trading partner code 20) with a par value of \$10,000 and an interest rate of 10% payable on June 30 and December 31. As of September 30, accrued interest would be calculated as follows: 3 months = 92 days/184 days x (\$10,000 x 10%)/2 = \$250.

The following entries should be recorded:

Providing agency Bureau of the Public Debt			Receiving agency Centers for Medicare and Medicaid Services

Amortization of Premium or Discount

The agencies' amortized premiums and discounts should be calculated using the effective interest method (as outlined in SFFAS No. 1, Accounting for Select Assets and Liabilities) for Treasury notes and bonds. The straight-line method is used for Treasury Bills. Federal program agencies (FPA) are responsible for reconciling their totals with BPD's amount and BPD will assist in that reconciliation effort. The Social Security Administration Federal Disability Insurance Trust Fund (trading partner code 28) purchased a Treasury security at a premium. The amortization of the premium for the current fiscal year is \$8,000.

The following entries should be recorded:

Borrowings from Treasury (BPD and FFB)

The Department of the Treasury lends funds to Federal government agencies and entities, based on agency specific legislative borrowing authority. The Bureau of the Public Debt keeps records and accounts for agency loans and FFB loans from the Treasury. BPD does not track the loans made from FFB to other federal agencies. FFB engages in lending to various federal entities through the purchase of agency financial assets, the acquisition of agency debt securities and by providing direct loans on behalf of the agency. The same methodology for recording, tracking and reporting proceeds from borrowing, interest payments, interest accruals and repayments for federal Intragovernmental loans should be used for Department of the Treasury, BPD and FFB loans. However, BPD does not recognize gains or losses on borrowings. Gains or losses on FFB loans should be recorded in accordance with this guide.

Proceeds from Borrowing

The Department of Education (trading partner code 91) borrows \$200,000 from Bureau of the Public Debt to finance student loans.

The following entries should be recorded:

Transactions with the DOL Relating to the FECA

The Federal Employees' Compensation Special Benefit Fund was established under the authority of the Federal Employees' Compensation Act (FECA). The FECA Special Benefits Fund pays for income lost and medical costs for Federal civilian employees injured on the job, employees who have incurred a work-related occupational disease and beneficiaries of employees whose death is attributable to a job-related injury or occupational disease.

The FECA Special Benefits Fund pays benefits on behalf of Federal entities as costs are incurred and bills (charges back) the entity annually (August 15) for the costs incurred during the previous 12-month period ended June 30 (July 1 – June 30). Federal entities fund the FECA payments through appropriations or operating revenues. For appropriated funds, the payment is due at the beginning of the second fiscal year after receipt of the bill (approximately 15 months). These liabilities due to the FECA Special Benefits Fund are recorded by the entities as unfunded (if annual appropriations are used) at the time of receipt of the bill. The liability amounts (including accruals) are provided by the DOL (on its website) by the 5th business day following the end of the preceding quarter.

"Government Corporations" are billed an administrative fee – fair share. The fair share fee is recorded as an operating expense in the fiscal year billed.

Federal entities with annual appropriations should recognize the unfunded liability for the charge backs at the time of receipt of the bill. The amount recorded should equal the amount billed by DOL. Generally, entities with no-year appropriations should recognize a funded liability and the funding availability at the time of the receipt of the chargeback from DOL.

On or before August 15 of each year, DOL submits a yearly billing (chargeback) report to Federal entities. The report is entitled *Notification of Workers' Compensation Cost Incurred on Your Behalf* (annual chargeback report) and covers the preceding 12-month period ended June 30 (July 1 through June 30). Additionally, each entity receives a quarterly Detailed Chargeback Report. The quarterly report provides a detailed listing of amounts paid by the FECA fund from the beginning of the current program year through the end of the quarter. The current year FECA expense and total liability will be calculated using information contained in these reports.

In general, the FECA expense and liability is calculated as follows:

Accrued FECA Liability:

The amount of accrued FECA liability (unfunded) for the year ended September 30, 20X 4 should equal:

Add: Annual FECA Chargeback Report for the period July 1, 20X 2 through June 30, 20X 3.

Add: Annual FECA Chargeback Report for the period July 1, 20X 3 through June 30, 20X 4.

Add: Quarterly FECA Chargeback Report for the quarter ended September 30, 20X 4.

FECA Expense:

The current year expense should equal:

Add: Annual FECA Chargeback Report for the period July 1, 20X 3 through June 30, 20X 4.

Add: Quarterly FECA Chargeback Report for the quarter ended September 30, 20X 4. Less: Quarterly FECA Chargeback Report for the quarter ended September 30, 20X 3.

When the agencies receive budgetary authority to pay DOL for the accrued FECA costs, the unfunded FECA liability should be reclassified to funded liability. The funded liability will be reduced when the payment of the chargeback is made to DOL-FECA. Federal entities with no year appropriations should record a funded liability upon receipt of the billing from DOL. Annually, Federal entities are allocated the portion of the long term FECA actuarial liability attributable to the entity. The liability is calculated to estimate the expected liability for death,

disability, medical and miscellaneous costs for approved compensation cases. The liability amounts and the calculation methodologies are provided by DOL to the entities by September 15. However, the actuarial liability is not part of the intragovernmental elimination process or the IFCS.

Each entity should record its portion of the FECA actuarial liability based on amounts provided by DOL. Each year, entities should record the change in the actuarial liability. The entity's actuarial liability balance should equal the amounts provided by DOL. The expense incurred for the year should equal the difference between the current year's liability and the liability for the previous year.

FECA Liability and FECA Actuarial Liability Transactions - Example

The Department of Justice (trading partner code 15) received the following reports/information from the Department of Labor (trading partner code 16):

I. Quarterly FECA Chargeback Report:

July 1, 2002 - September 30, 2002	\$4,000
July 1, 2003 - September 30, 2003	\$3,000

II. Notification of Workers Compensation Cost Incurred on Your Behalf by DOL Employment Standard Administration Report (Annual FECA Chargeback Report):

July 1, 2000– June 30, 2001	\$15,000
July 1, 200 1 – June 30, 2002	\$18,000
July 1, 2002– June 30, 2003	\$20,000

III. Additional Accrual Information:

(From FY 2003 DOL web page)

(From FY 2002 DOL web page)	
Allocation of Accrued Benefits – September 30, 2002	\$1,000
Allocation of Overpayment Receivables – September 30, 2002	(\$600)

Allocation of Accrued Benefits – September 30, 2003	\$1,350
Allocation of Overpayment Receivables – September 30, 2003	(\$800)

- IV. Fair Share (Administrative Fee) Due in FY 2004 \$5,000
- V. DOL Estimates of Total FECA Future Liabilities Report:

Fiscal year 2002	\$140,000
Fiscal year 2003	\$160,000

VI. Accrued FECA liability for fiscal year 2003 (prior year trial balance) \$37,400

The following sections provide the fiscal year 2002 beginning trial balance, accounting entries, pre-closing trial balance and financial statements for DOJ (partner code 15) and DOL (partner code 16) based on the above information.

1. Accrued FECA Liability and Expense: Federal entities receive FECA chargeback reports from DOL and record accruals for the unfunded FECA liability and expense incurred during the current fiscal year. (If the entity has no year appropriations, the FECA liability would be funded). DOL publishes FECA liability information including amounts for the allocation of accrued benefits and allocation of overpayment receivables for all agencies on the DOL/OCFO website: http://www2.dol.gov/ocfo/newsroom/main.htm.

Department of Justice Example:

DOJ unfunded FECA liability and FECA expense for fiscal year 200 3 is calculated as follows:

Annual FECA Chargeback for 7/1/01 - 6/30/02	18,000.00
Annual FECA Chargeback for 7/1/02- 6/30/03	20,000.00
Quarterly FECA Chargeback for 7/1/03- 9/30/03	3,000.00
Unfunded FECA Liability for fiscal year 2003 (before	41,000.00
Allocations)	
Allocation of Accrued Benefits as of 9/30/03	1,350.00
Allocation of Overpayment Receivables as of 9/30/03	(800.00)
Unfunded FECA Liability for fiscal year 2003	41,550.00
Unfunded FECA Liability for fiscal year 2002(before Allocations)	37,000.00
Allocation of Accrued Benefits as of 9/30/02	1,000.00
Allocation of Overpayment Receivables as of 9/30/02	(600.00)
Unfunded FECA Liability for fiscal year 2002	37,400.00
FY 2003 Unfunded FECA benefit expense	4,150.00
Annual FECA Chargeback for 7/1/02 - 6/30/03	20,000.00
Quarterly FECA Chargeback for 7/1/02 - 9/30/02	(4,000.00)
Quarterly FECA Chargeback for 7/1/03 - 9/30/03	3,000.00
Net Allocation of Accrued Ben/Overpayment Rec. as of 9/30/03	550.00
Net Allocation of Accrued Ben/Overpayment Rec. as of 9/30/02	400.00
Fiscal Year 2003 total FECA expense	19,550.00

Actuarial FECA Liability

Agencies record the change in the FECA actuarial liability to adjust the liability to equal the amount provided by DOL on the Estimates of Total FECA Future Liabilities Report. Actuarial liabilities for future benefits should be recorded in Federal entity records as "N" transactions. DOL does not record a corresponding entry. Additionally, budgetary accounting is not required when recording transactions related to the actuarial liability.

The Department of Justice change in the FECA actuarial liability is calculated as follows:

Fiscal Year 200 3	\$160,000
Fiscal Year 200 2	(140,000)
Fiscal Year 200 3 Actuarial expense	\$ 20,000

Balance Sheet	2650N	Actuarial FECA Liability	(160,000)
Balance Sheet	3310	Cumulative Results of Operation	140,000
Statement of Net Cost	7600N	Changes in Actuarial Liability	20,000

Transactions with the OPM Relating to Employee Benefit Programs

OPM administers three earned benefit programs for civilian Federal employees: the Retirement Program - comprised of the Civil Service Retirement System and the Federal Employees' Retirement System, the Federal Employees Health Benefits Program, and the Federal Employees Group Life Insurance Program.

<u>Retirement Program</u>: OPM administers a retirement program that includes two components of defined benefits: the Civil Service Retirement System (CSRS) and the Federal Employees' Retirement System (FERS). CSRS is a stand-alone plan covering most Federal employees hired before 1984, and is closed to new members. Using Social Security as a base, FERS provides a defined benefit and a thrift savings plan to employees who first entered a covered position on or after January 1, 1984. OPM administers the defined benefit portion of the FERS. For CSRS, the

law fixes the contributions by and for most participants at a combined percent of basic pay. Since the cost to provide a future benefit to most CSRS employees is higher than the contributions, the combined contributions by and for most participants do not cover the cost of CSRS. The service cost of providing future benefits to FERS employees is fully covered by the combined employee and employer contributions.

Since total contributions by and for covered employees fall short of the service cost of the program, SFFAS No. 5 requires that employing agencies recognize their share of this "shortfall" as an imputed cost. By September 15, OPM will provide the cost factors to agencies needed to calculate and record imputed cost.

<u>Health Benefits Program</u>: The Federal Employees Health Benefits Program (FEHBP) provides health benefits for covered employees and annuitants. FEHBP is contributory, with the cost shared by the covered participant and his/her employer, based upon a formula in law. For covered annuitants, the employer contribution is paid from an OPM appropriation. Since there is no provision in law to cover the cost of providing health benefits to current employees after they retire, SFFAS No. 5 requires employing agencies to recognize their share of that cost as an imputed cost. OPM will provide to employing agencies, by September 15, the cost factors needed to calculate and record imputed cost.

<u>Life Insurance Program</u>: The Federal Employees Group Life Insurance (FEGLI) is contributory, with the full cost of premiums for basic coverage shared by the covered participant and his/her employer. For covered annuitants, the employer contribution to basic coverage derives from an OPM appropriation. (The cost for the optional coverage is borne entirely by the covered individual). Based upon a formula in law, participants contribute approximately two-thirds of

the cost of premiums, with the applicable employing agency contributing the remainder. Since there is no provision in law to cover the cost of providing life insurance benefits to current employees after they retire, SFFAS No. 5 requires employing agencies to recognize their share of that cost as an imputed cost. OPM will provide to employing agencies, by September 15, the cost factors needed to calculate and record imputed cost.

<u>Payroll Cross-Servicing Arrangements</u>: Agencies using cross-servicing agencies (the USDA National Finance Center, the Department of Interior and the General Services Administration) are responsible for reconciling their payroll data to the OPM information (the cross-servicers are not responsible).

The following are contacts for payroll information:

<u>Cross-servicer</u>	<u>Contact</u>	<u>Phone</u>
National Finance Center	Patrick Foret	504-255-4110
Department of the Interior	Sandy Gregory	303-969-7739
General Services Administration	John Shields	816-926-6639

Agency (Employer) Contributions (Cash Basis)

The Department of Housing and Urban Development (trading partner code 86) makes employer contributions for Retirement (\$8,500), Health Benefits (\$2,500) and Life Insurance (\$2,000). The total contribution of \$13,000 is remitted to OPM when the payroll is paid.

TOTAL	(13,000)	TOTAL	13,000	0

Agency (Employer) Contributions (Yearend Accrual)

There is one pay period that will affect the computation of the FY 2004 year-end accrual:

1. The pay period in question is the one that "straddles" September 30, 2004. For example, the pay period begins on September 19, 2004 and ends on October 2, 2004 with a payroll paid date of October 13, 2004. In this case, 90% of employer contributions would be included in the year-end accrual. Agencies should use the ratio of the number of workdays in the prior fiscal year divided by the total number of workdays in the "straddling" pay period to compute this portion of the accrual.

The Department of Housing and Urban Development payroll was \$50,000 for the pay period ended on and October 4 (Saturdays for this example). Employer contributions are \$6,500 for the pay period. The straddle period is nine working days out of ten working days.

The following entries should be recorded:

Providing agency Office of Personnel Management			Receiving agency Department of Housing and Urban Development			oan

Position	(24)		
Statement of Net Cost	6730F	Imputed Costs	109,950
	(24)		

There is no intragovernmental reciprocal category eliminations entry between OPM and Interior.

Services Provided

Services provided between agencies can include administrative support, financial accounting and grants management, disbursement of funds, consulting, telecommunication, child care and other functions where the providing agency incurs costs to provide services and bills the receiving agency fees for the services.

The General Services Administration (trading partner code 47) provided \$120,000 of engineering services for the Department of Transportation (trading partner code 69). The General Services Administration records the transaction through IPAC when the services are completed (General Services Administration does not bill the transactions before collecting since the collection occurs on the day the amounts would be billable). The Department of Transportation records the entry when the transaction is posted through IPAC (in the same accounting period).

The following entries should be recorded:

Providing agency General Services Administration				Receiving a Department of Ti	-	ion

Goods/Products

Goods/products sold or leased between agencies include cars, equipment, manufactured goods, office space, supplies and other similar transactions where the providing agency manufacturers, distributes, or owns the assets which are sold or leased to the receiving agency. The following examples demonstrate three transactions: (1) the receiving agency records the items as expenses, (2) the receiving agency records the items as fixed assets and (3) the receiving agency records the items as inventory. These entries are for agencies that routinely provide goods/products to other agencies. Agencies who periodically sell agency owned and used assets to other agencies should use the transactions in the <u>Sale of Equipment</u> (below) as a basis for recording entries. Agencies should classify fixed assets and inventory into the appropriate USSGL accounts based on the items purchased.

Goods Recorded as Expenses by Receiving Agency

Federal Prison Industries, Inc. (Department of Justice trading partner code 15) sold \$45,000 of small office furniture to the Department of Health and Human Services. The small office furniture was delivered to the Department of Health and Human Services (trading partner code

75) on September 15. The IPAC transaction occurred on October 15. The Department of Health and Human Services recorded the small office furniture as expenditures.

The following entries should be recorded as of September 15:

Providing agency Federal Prison Industries, Inc.			Receiving agency Health and Human Services				
TC A310				TC B302			
1310F	Accounts	45,000		6100F	Operating	45,000

RC24: Buy/Sell Costs/Revenues

Federal Prison Industries	Amount	Health and Human Services	Amount	Difference
5100F(75)- Revenues from Goods Sold	(45,000)	6100F(15)- Operating Expenses/Program Costs	45,000	0
TOTAL	(45,000)	TOTAL	45,000	0

Goods Recorded as Assets by the Receiving Agency

Federal Prison Industries, Inc. (Department of Justice trading partner code 15) sold \$475,000 of systems furniture to the Department of Health and Human Services. The systems furniture was delivered to the Department of Health and Human Services (trading partner code 75) on September 15. The IPAC transaction occurred on October 15. The Department of Health and Human Services recorded the systems furniture as assets (capitalized) in the September accounting period.

For these "N" accounts, a mechanism was established effective beginning FY 2003 to identify and summarize the transactions as intragovernmental purchases that are recorded as inventory, property, or other capitalized assets. This is demonstrated with the application of memorandum account 8802, Purchases of Capitalized Assets, with trading partner code (xx) below.

The following entries should be recorded as of September 15. The "N" accounts are listed to demonstrate the reciprocal relationships:

Providing agency Federal Prison Industries, Inc.			Receiving Health and Hu		es		
TC A310				TC B302			
1310F (75)	Accounts Receivable	475,000		1750N	Equipment	475,000	
5100F (75)	Revenues from Goods Sold		475,000	2110F (15)	Accounts Payable		475,000
				TC E202 8802F (15)	Purchases of Capitalized Assets	475,000	
				8801F (15)	Offset for Purchases of Capitalized Assets		475,000

The future depreciation of the assets has no affect on the intragovernmental activity and should be recorded as an "N" account transaction within the Department of Health and Human Services general ledger. Depreciation should be calculated in accordance with the Department of Health and Human Services policies and procedures.

Federal Prison Industries, Inc. Statement	Account #	USSGL Account Title	Amount (based on the above transaction)

NOTE: SGL 8801 does not reciprocate.

Goods Recorded as Supplies Inventory by the Receiving Agency

The General Services Administration (trading partner code 47) sold \$25,000 of supplies to the Department of Health and Human Services. The supplies were delivered to the Department of Health and Human Services (trading partner code 75) on September 15. The IPAC transaction occurred on October 15. The Department of Health and Human Services recorded the supplies as inventory in the September accounting period. This entry is recorded regardless of when the Department of Health and Human Services uses and/or issues the inventory for use.

For these "N" accounts, a mechanism was established effective beginning FY 2003 to identify and summarize the transactions as Intragovernmental purchases that are recorded as inventory, property or other capitalized assets. This is demonstrated with the application of memorandum account 8802, Purchases of Capitalized Assets, with trading partner code (xx) below.

The following entries should be recorded as of September 15, 2003:

Ger	Providing agency General Services Administration		F	Receiving age

TOTAL	(25,000)	TOTAL	25,000	0

NOTE: SGL 8801 does not reciprocate.

Sale of Inventory (Cost of Goods Sold)

Sale of inventory can occur between agencies (Cash Basis).

The General Services Administration (GSA) (trading partner code 47) bought \$5,000 of inventory for resale from a Non-Federal vendor. GSA sold \$1,000 of the inventory to Department of Justice (DOJ) (trading partner code 15) who classified it as inventory. DOJ then sold \$300 of its inventory to Department of the Treasury (trading partner code 20), who expensed the items.

Inventory accounts are classified as "N" for the Federal/Non-Federal attributed. A mechanism was established effective beginning FY 2003 to identify and summarize the transactions as intragovernmental purchases that are recorded as inventory or other capitalized assets.

This is demonstrated with the application of the memorandum account 8802 Purchases of Capitalized Assets with trading partner code (xx) below:

The entries are as follows:

General Services Administration (47)

REIMBURSABLES

Reimbursables are similar to services, except the amounts billed to the receiving agency by the providing agency are based on actual costs incurred (instead of on a fee basis). Many times these transactions occur within agencies when an administrative group provides services for bureaus throughout the agency. The providing agency should have policies, procedures, systems and documentation for cost accumulation supporting amounts billed to receiving agencies. The following are examples of transactions with an advance provided to the providing agency and transactions without an advance. Please note: Federal program agencies recording advances should provide liquidation reports to partners on a quarterly basis.

The Department of Veterans Affairs, Facilities Management Field Service, provides technical consulting services, project management, real property administration (including leases, site acquisition and disposal activities directly supporting projects) for other components of the Department of Veterans Affairs on a reimbursable basis. The following are the entries to reflect the activity with an advance and without an advance.

Advance

The Department of Veterans Affairs, Veterans Health Administration, issues a delivery order for \$150,000 of services and provides an advance in the same amount.

The following entries should be recorded:

Providing agency VA Facilities Management Service			Receiving agency VA Health Administration				
TC C182	,			TC B206

Sale of Equipment

Sales of equipment can occur between agencies at book value or with a gain or loss to the providing (selling) agency.

Accounting for Gains/Losses in Future Years

Gains/losses on intragovernmental equipment sales will need to be tracked by the receiving agency on a separate schedule, to be provided to FMS, with the Closing Package data submission. This information is necessary for preparation of the consolidated financial statements. If the gain/loss is material to the receiving agency, the following information should be provided to FMS:

- Amount of gain/loss.
- Date of the transaction.
- Amount of gain/loss depreciated by year, for each year commencing with the transaction.

The following are examples of each scenario:

Sale of Equipment at Net Book Value

The Department of Energy (trading partner code 89) sold \$650,000 of equipment to the Department of Commerce (trading partner code 13). The book value of the equipment was \$650,000 (cost \$750,000 and accumulated depreciation \$100,000). The Department of

Commerce should record the equipment for the amount paid (\$650,000) without any accumulated depreciation.

For these "N" accounts, a mechanism was established effective beginning FY 2003 to identify and summarize the transactions as Intragovernmental purchases that are recorded as inventory, property, or other capitalized assets. This is demonstrated with the application of memorandum account 8802, Purchases of Capitalized Assets, with trading partner code (xx) below.

The following entries should be recorded:

	Providing agency Department of Energy				Receiving a	-	
TC C312	Department of	i Energy			Department of	Commerce	
10 0312							
1010	Fund Balance With Treasury	650,000		1750N	Equipment	650,000	
1750N	Equipment		750,000	1010	Fund Balance With Treasury		650,000
1759N	Accumulated Depreciation	100,000		TC E202	,		
				8802F (89)	Purchase of Capitalized Assets	650,000	
				8801F (89)	Offset for Purchases of Capitalized Assets		650,000

The future depreciation of the assets has no affect on the intragovernmental activity and should be recorded as an "N" account transaction within the Department of Commerce general ledger. Depreciation should be calculated in accordance with the Department of Commerce policies and procedures.

The crosswalk for financial statement reporting of these accounts is as follows:

Department of Energy Statement	Account #	USSGL Account Title	Amount (based on the above transaction)
Balance Sheet	1010	Fund Balance With Treasury	650,000
Balance Sheet	1750N (13)	Equipment	(750,000)
Balance Sheet	1759N (13)	Accumulated Depreciation on	100,000
		Equipment	

Department of Commerce Statement	Account #	USSGL Account Title	Amount (based on the above transaction)
Balance Sheet	1010	Fund Balance With Treasury	(650,000)
Balance Sheet*	1750N (89)	Equipment	650,000

[•] For FY 2003 the increase in Equipment is reflected in USSGL account 8802. USSGL 8802F (89) is closed out to USSGL account 8801F (89), Offset for Purchases of Capitalized Assets.

Sale of Equipment with a Gain

The Department of Energy (trading partner code 89) sold \$650,000 of equipment to the Department of Commerce (trading partner code 13). The book value of the equipment was \$550,000 (cost \$550,000, accumulated depreciation \$0).

The mechanism to identify and summarize the transactions as an intragovernmental purchase and sale, and the associated gain, is demonstrated below.

The following entries should be recorded:

Providing agency Department of Energy			Receiving agency Department of Commerce				
TC C312				1750N	Equipment	650,000	
1010	Fund Balance With Treasury	650,000					
1750N	Equipment		550,000	1010	Fund Balance With Treasury		650,000
7110N	Gains on Disposition of		100,000	TC E202	Ž		
	Assets - Other			8802F (89)	Purchases of Capitalized Assets	650,000	

Providing agency	Receiving agency		
Department of Energy	Department of Commerce		
	8801F	Offset for	650,000
	(89)	Purchases of	
		Capitalized	
		Assets	

The crosswalk for financial statement reporting of these accounts is as follows:

Department of Energy Statement	Account #	USSGL Account Title	Amount (based on the above transaction)
Balance Sheet	1010	Fund Balance With Treasury	650,000
Balance Sheet	1750N	Equipment	(550,000)
Statement of Net Cost	7110N	Gains on Disposition of Assets - Other	(100,000)

Department of Commerce Statement	Account #	USSGL Account Title	Amount (based on the above transaction)
Balance Sheet	1010	Fund Balance With Treasury	(650,000)
Balance Sheet	1750N	Equipment*	650,000

 ^{*} For FY 2003 the increase in Equipment is reflected in USSGL account 8802. USSGL 8802F (89) is closed out to USSGL account 8801F (89), Offset for Purchases of Capitalized Assets.

Sale of Equipment with a Loss

The Department of Energy (trading partner code 89) sold \$650,000 of equipment to the Department of Commerce (trading partner code 13). The book value of the equipment was \$700,000 (cost \$700,000, accumulated depreciation \$0).

The mechanism to identify and summarize the transactions as an intragovernmental purchase and sale, and the associated gain, is demonstrated below.

The following entries should be recorded:

	Providing agency Department of Energy				Receiving a Department of	•	
TC C312		- 8/		1750N	Equipment	650,000	
1010	Fund Balance With Treasury	650,000					
1750N	Equipment		700,000	1010	Fund Balance With Treasury		650,000
7210N	Losses on Disposition of	50,000		TC E202	·		
	Assets - Other			8802F (89)	Purchases of Capitalized Assets	650,000	
				8801F (89)	Offset for Purchases of Capitalized Assets		650,000

The crosswalk for financial statement reporting of these accounts is as follows:

Department of Energy Statement	Account #	USSGL Account Title	Amount (based on the above transaction)
Balance Sheet	1010	Fund Balance With	650,000
		Treasury	
Balance Sheet	1750N	Equipment	(700,000)
Statement of Net Cost	7210N	Losses on Disposition of	50,000
		Assets - Other	

Department of Commerce Statement	Account #	USSGL Account Title	Amount (based on the above transaction)
Balance Sheet	1010	Fund Balance With Treasury	(650,000)
Balance Sheet	1750N (89)	Equipment	650,000

 ^{*} For FY 2003 the increase in Equipment is reflected in USSGL account 8802. USSGL 8802F (13) is closed out to USSGL account 8801F (13), Offset for Purchases of Capitalized Assets.

<u>Transfers, Appropriations Used and Collections for Others, and Unusual Assets and Liabilities Related to Appropriations</u>

Funding may be transferred from one agency to another. The providing agency transfers the funds to the receiving agency. Funds are transferred based on an agreement between the agencies. The funding is transferred based on the terms of the agreement and can occur at the time the agreement commences or as expenditures are incurred.

Receivables/payables for the amount in the agreement are established if the transfer is funded based on cash needs of the receiving agency. Subsequent cash transfers are recorded as deductions of the receivables/payables. A transfer is recorded (without receivables/payables) if all of the cash is transferred at the commencement of the agreement.

The following are examples of transfers where funds are sent to the receiving agency at commencement of the agreement, and where funds are sent to the receiving agency when the receiving agency incurs expenses.

Nonexpenditure Transfers Affecting Reciprocal Category 19 (Appropriation Transfers-In/Out) and Reciprocal Category 28 (Unexpended Appropriations – Transferred-In/Out)

Before processing nonexpenditure transfers between Treasury Appropriation Fund symbols (TAFS), first determine the original source of the balances being transferred. The "Transfer From" entity will determine the source of funds being transferred and record a proprietary USSGL account that designates the funding as being derived from either:

- Unexpended appropriations from general fund resources not earmarked by law for a specific purpose USSGL 3103 Unexpended Appropriations Transfers-Out, or
- Financing Sources that impact cumulative results of operations USSGL 5765
 Nonexpenditure Financing Sources Transfers Out

The "Transfer To" entity must use propriety USSGL account that corresponds to the proprietary USSGL account used by the "Transfer From" entity. USSGL 3102 Unexpended Appropriations – Transfers-In corresponds to USSGL 3103. USSGL 5755 Nonexpenditure Financing Sources – Transfers In corresponds to USSGL 5765.

It is not uncommon for the net position of any TAFS to be comprised of a mix of unexpended appropriations derived from general fund resources not earmarked by law for a specific purpose and financing sources that impact cumulative results of operations.

Failure of both entities to record the matching proprietary USSGL accounts category (3102/3103) or (5755/5765) will result in agency-wide and/or government-wide eliminations discrepancies.

Transfer Where Funds are Sent to the Receiving Agency when the Agreement Commences

DOL (trading partner code 16) receives a transfer appropriation from the Environmental Protection Agency (EPA) (trading partner code 68) of \$550,000. EPA sends all of the funds to DOL when the agreement commences. Trading partner codes should be used with Unexpended Appropriations to facilitate both financial reporting and the reconciliation process when funds are transferred between agencies.

The following entries should be recorded:

Eı	Providing agency Environmental Protection Agency			Receiving agency Department of Labor			
TC A251				TC A249			
3103F (16)	Unexpended Appropriations – Transfers-out	550,000		1010	Fund Balance With Treasury	550,000	
1010	Fund Balance With Treasury		550,000	3102F (68)	Unexpended Appropriations – Transfers-in		550,000

The crosswalk for financial statement reporting of these accounts is as follows:

Environmental Protection Agency Statement	Account #	USSGL Account Title	Amount (based on the above transaction)
Balance Sheet	1010	Fund Balance With Treasury	(550,000)
Statement of Changes in Net Position	3103F (16)	Unexpended Appropriations-Transfers- out	550,000

Department of Labor Statement	Account #	USSGL Account Title	Amount (based on the above transaction)
Balance Sheet	1010	Fund Balance With	550,000
		Treasury	
Statement of Changes in Net	3102F (68)	Unexpended	(550,000)

Example of a Trust Fund Expenditure Transfer

DOL (trading partner code 16) receives an expenditure transfer from the Environmental Protection Agency (EPA) (trading partner code 68) of \$550,000. EPA provides funding to DOL as it incurs costs. The first entry is to record the receivables and payables.

The following entries should be recorded:

E	Providing agency Environmental Protection Agency			Receiving agency Department of Labor			
TC A259				TC A258			
5760F (16)	Expenditure Financing Sources – Transfers-out	550,000		1335F ⁴ (68)	Expenditure Transfers Receivable	550,000	
2155F (16)	Expenditure Transfers Payable		550,000	5750F (68)	Expenditure Financing Sources- Transfers-in		550,000

The crosswalk for financial statement reporting of these accounts is as follows:

Environmental Protection Agency Statement	Account #	USSGL Account Title	Amount (based on the above transaction)
Balance Sheet	2155F(16)	Expenditure Transfers Payable	(550,000)

⁴ 1330F Receivable for Transfers of Currently Invested Balances and 2150F Payable for Transfers of Currently Invested Balances can also be used in this entry (**only for nonexpenditure transfers accomplished via SF 1151: Nonexpenditure Transfer Authorization).** The corresponding revenue transfer is 5755F Nonexpenditure Financing Sources Transfers-In and 5765F Nonexpenditure Financing Sources Transfers-out, respectively.

Final Guide - July 1, 2005

Other Transactions

There are other intragovernmental transactions occurring between agencies not specifically referred to in this guide. FMS suggests that agencies establish accounting procedures for these transactions in conjunction with their partners to provide for easy identification and reconciliation of the activities and balances.

Yearend Cut-off Procedures

The following is an example of how year-end cut-off activity can be communicated and recorded by trading partners. For purposes of the example, the following transactions occurred in October:

Transaction 1 - 10/15/01 - The providing agency billed (through IPAC) for services provided through September 15 - \$40,000.

Transaction 2 - 10/30/01 - The providing agency estimated amounts billable as of September 15 under a separate service agreement - \$10,000.

Transaction 3 - The receiving agency borrowed funds from the providing agency. A semi-annual interest payment of \$180,000 is due on 12/31/01. The providing agency calculated the amount to be accrued as of September 30 [\$180,000 X (3months/6 months) = \$90,000].

These transactions should be reported based on the USSGL account with the corresponding trading partner code identified in accordance with USSGL Documents and Agency Reporting Requirements in the I TFM 2-4700. The following is an example of a format providing agencies can use for informing receiving agencies of cut-off activity:

Year end cut-off activity

Providing agency preparer/name/phone/e-mail: Agency preparer name, 202-000-0000,

name@email.address

Providing agency trading partner code: xx **Receiving agency trading partner code:** xx

Fiscal year: 2000

Reconciliation Procedures

The Department of Defense (trading partner code 97) provides the Department of Agriculture (trading partner code 12) with engineering services under an ongoing contract. The Department of Defense also sells the Department of Agriculture unused furniture and equipment and transfers appropriations to it.

AMOUNT

The following is the detailed information relating to the example:

Providing agency: Department of Defense (DoD) trading partner code 97 Receiving agency: Department of Agriculture (USDA) trading partner code 12

Transactions:

DATE

Services provided for USDA ((in dollars):
09/99	\$10,000
10/99	8,000
11/99	9,000
12/99	6,000
01/00	8,000
02/00	7,000
03/00	7,000

DATE	<u>Amount</u>
04/00	9,000
05/00	6,000
06/00	5,000
07/00	9,000
08/00	3,000
09/00	6,000
	,
Goods sold to USDA:	
12/99 Trucks (not capitalized)	4,000
01/00 Desks (not capitalized)	8,000
04/00 Supplies	6,000
09/00 Supplies	7,000
Funds transferred to USDA:	
07/00	50,000
09/00	30,000

Balances in DoD records:

1310F (12) Accounts Receivable at 10/1/99 \$10,5	500
--	-----

Fiscal Year 2000:

5100F (12)	Revenue from Goods Sold		\$25,000
5200F (12)	Revenue from Services Provided		\$83,000
1310F (12)	Accounts Receivable	\$ 6,500	
3103 (12)	Unexpended Appropriations (Transf	ers-Out)	\$80,000

Balances in USDA records:

Accounts Payable at 10/1/99: \$10,000

Fiscal year 2000:

6100F (97)	Services Purchased from DoD	\$77,000
6100F (97)	Goods Purchased from DoD	\$25,000
2110F (97)	Accounts Payable	\$0
3102 (97)	Unexpended Appropriations (Transfers-In)	\$80,000

DoD bills USDA for services provided 15 days following each month end. USDA reclassifies transactions for services provided based on IPAC reports received in the following month. USDA uses purchase orders to procure the goods purchased from DoD.

The following is an example of data provided to USDA by DoD. It represents the information necessary for reconciliation (this information was agreed upon by both agencies).

^{*} For reconciliation of FY 2003 Intragovernmental balances, USSGL account 8802F (97) would be used instead of the individual asset USSGL accounts. The receiving agency (in this example) would need to perform an internal reconciliation between USSGL 8802 and the asset USSGL accounts.

USDA used the Agency Data Request Form to identify the causes of the differences.

USDA and DoD worked together to determine the appropriate adjustments to be made, in order to agree with the account activity and balances. The following differences were identified in the initial reconciliation.

- 1. USDA did not record the bill for September 30 until October (\$6,000).
- 2. DoD did not make an adjustment for an accounting event from the prior year (\$500).

The adjusting entries to correct the differences would be as follows.

Entry 1: USDA records the accrual for September services provided by DoD.

Providing agency		Receiving age	ency	
Department of Defense		Department of Agriculture		
No transaction.	6100F	Operating	6,000	
	(97)	Expenses/Program	n	
		Costs		
	2110F	Accounts Payable	:	6,000
	(97)	•		

Entry 2: DoD corrects its records for the \$500 adjustment to the beginning balance.

Providing agency Department of Defense			Receiving agency Department of Agriculture
1310F (12) 5200F (12)	Accounts Receivable Revenues from Services Provided	500	No transaction.

The above documents were completed by USDA. It is an example of a format for reconciliation.

Appendix B - Federal Trading Partner Department Codes for GFRS and FACTS I

The following crosswalk provides Federal trading partner codes that are required for the Governmentwide Financial Reporting System (GFRS) and Federal Agencies Centralized Trial Balance System I (FACTS I). These codes are used to facilitate the preparation of the *Financial Report of the United States* (FR). The identification number shown below under GFRS Codes is unique to GFRS. In most instances, the 2-digit department code used in FACTS I has two added to the end for the purpose of GFRS (that is Department of the Treasury, FACTS I Codes 20, GFRS Codes 2000). The Department of Defense (DOD) trading partner code DE00 will include the Department of the Air Force, the Department of the Army, the Department of the Navy, the Defense Agencies, and the U.S. Corps of Engineers. The Trading Partner Code 9500 will include independent and other agencies. The FACTS I Trading Partner Codes did not change.

GFRS Codes	FACTS I Codes	Department or Agency
1200	12	Department of Agriculture
1300	13	Department of Commerce
1400	14	Department of Interior
1500	15	Department of Justice
1601	16	Department of Labor
1602	16	Pension Benefit Guaranty Corporation
1800	18	U.S. Postal Service
1900	19	Department of State
2000	20	Department of Treasury
2400	24	Office of Personnel Management
2500	25	National Credit Union Administration
2700	27	Federal Communications Commission
2800	28	Social Security Administration
3100	31	U.S. Nuclear Regulatory Commission
3300	33	Smithsonian Institution
3600	36	Department of Veterans Affairs
4700	47	General Services Administration
4900	49	National Science Foundation
5000	50	Securities and Exchange Commission
5100	51	Federal Deposit Insurance Corporation
6000	60	Railroad Retirement Board
6400	64	Tennessee Valley Authority
6800	68	Environmental Protection Agency
6900	69	Department of Transportation
7000	70	Department of Homeland Security
7200	72	Agency for International Development
7300	73	Small Business Administration
7500	75	Department of Health and Human Service
7802	78	Farm Credit System Insurance Corporation
8000	80	National Aeronautics and Space Administration

<u>Appendix D – Scenarios for Comparative Status of Disposition Explanation of Material Difference</u>

Scenario	Reported Explanation	n of Material Difference	Expected Corrective Action (Agencies and/or FMS)		
Occitatio	Agency A	Agency B	Exposice contestive nation (Agencies unare) i mey		
1	Confirmed Reporting	Confirmed Reporting	FMS will submit a report to OMB for possible mediation.		
2	Confirmed Reporting	Accounting Methodology	The Confirmed Reporting agency (A) shall report 'Accounting Methodology' explanation and basis of accounting in subsequent reporting period.		
3	Confirmed Reporting	Current Year Timing Difference	Agency B is expected to account for activity in subsequent reporting period.		
4	Confirmed Reporting	Prior Year Timing Difference	FMS is aware that the Material Difference will be a recurring difference.		
5	Confirmed Reporting	Unknown	Agency B is expected to further research accounting treatment.		
6	Confirmed Reporting	Accounting Error	Agency B is expected to correct reporting in subsequent period.		
7	Accounting Methodology	Accounting Methodology	Both Agency A and B shall provide basis of accounting treatment; if the same treatment is used FMS deem it to be inconsistent; otherwise FMS is aware that the Material Difference will be a recurring difference.		
8	Accounting Methodology	Accounting Error	Agency B shall correct explanation in subsequent reporting period to indicate 'Accounting Methodology' and provide basis; ultimately FMS is aware that the Material Difference will be a recurring difference.		
9	Accounting Methodology	Current Year Timing Difference	Refer to scenario 8		
10	Accounting Methodology	Prior Year Timing Difference	Refer to scenario 8		
11	Accounting Methodology	Unknown	Refer to scenario 8		
12	Accounting Error	Accounting Error	Both Agency A and B are expected to correct reporting in subsequent for the amount impacting its own agency.		
13	Unknown	Unknown	Both Agency A and B are expected to further research accounting treatment; FMS will provide report to OMB and an Unreconciled Activity report to GAO.		
14	Unknown	Accounting Error	Agency A is expected to further research accounting treatment; while Agency B is expected to correct reporting in subsequent period to the extent of the accounting error made.		

Scenario	Reported Explanation of Material Difference		Expected Corrective Action (Agencies and/or FMS)		
Coonano	Agency A	Agency B			
15	Unknown	Current Year Timing Difference	The Agency (A) reporting 'Unknown' explanation shall correct explanation in subsequent period to 'Current Year Timing Difference'; while the corresponding agency (B) is expected to record activity in a subsequent reporting period.		
16	Unknown	Prior Year Timing Difference	The Agency (A) reporting 'Unknown' explanation shall correct explanation in subsequent period to 'Prior Year Timing Difference'; FMS is aware that the Material Difference will be a recurring difference.		
17	Prior Year Timing Difference	Prior Year Timing Difference	FMS is aware that the Material Difference will be a recurring difference.		
18	Current Year Timing Difference	Current Year Timing Difference	Whichever Agency (A or B) that requires future accounting treatment is expected to record activity in a subsequent accounting period.		

Note: When agency A and B explanations are reversed the corrective action is applied also in reverse.

Representations). For items where agency	
reporting differences exist, compare the	
explanations to supporting documentation and	
identify any discrepancies.	
Procedures 4	
On November 29, 2005, FMS will generate and	
distribute the Intragovernmental Comparative	
Closing Package Explanation of Differences	
Report for Intragovernmental activity/balances to	
agency IGs.	
Agency IGs/Auditors will use this report to:	
(1) Compare the differences between the	
agency and its trading partners by reciprocal	
category/line-item from FMS'	
Intragovernmental Comparative Closing	
Package Explanation of Differences Report	
to explanations from the agency supporting	
documentation. For items where agency	
reporting differences exist, compare the	
explanations to supporting documentation and	
identify any discrepancies.	
(2) Identify any inconsistencies in amounts or	
explanations between FMS' Intragovernmental	
Comparative Closing Package Explanation of	
Differences reports and agency's supporting	
documentation.	
(3) In the event of non-reporting by trading	
partners, as indicated in the footer section of	
FMS' Intragovernmental Comparative Closing	
Package Explanation of Differences reports,	
identify whether the difference is due to a non-	
reporting partner and do not proceed further with	
the review of the differences.	
Procedure 5	

Identify and include copies of internal control

findings related to intragovernmental activities	
from the financial statements audit, including	
items cited in the management letter. Also,	
identify and report auditor-proposed	
intragovernmental adjustments that were waived	
by the agency.

APPENDIX H

ADDITIONAL EXPLANATIONS FY 2005 – 2nd QUARTER

Age	Agency Code/Name:			
TP	RC	AMOUNT OF DIFFERENCE	EXPLANATION	

Appendix I–Explanation of Differences

Status of Disposition Certification For Quarterly and Closing Package Differences (Verifying Agencies)

Explanation o	f Differences *
Confirmed Reporting	When an agency has verified/ reviewed/ agreed the amount reported to IRAS/GFRS is accurate, an "X" is placed in the confirmed reporting column. Confirmed reporting needs no amount entered or written explanation. When the confirmed reporting column is selected, there should be no other column marked.
Accounting Methodology Difference	When an agency verified/ reviewed/ agreed the amount reported to IRAS/GFRS is accurate, yet the difference in the agency's reporting and their partner reporting is due to different accounting methods used, an "X" is placed in the "Accounting Methodology Difference" column. Additional explanations for Accounting Methodology Differences should be provided in the bottom section of the Status of Disposition Report. When providing explanations, first indicate the method your agency is using. Additional explanations of the basis of accounting must be provided.
Accounting/Reporting Error	When an agency has verified/ reviewed/ agreed the amount reported to IRAS/GFRS is not accurate, possibly due to non-reporting (reporting error) or incorrect reporting (accounting error), the amount of the error(s) is placed in the "Acctg/Rptg Error" column. When an agency has indicated an amount as a reporting or accounting error, this will be used to increase or decrease their original reporting. Only place the amount of adjustment (positive or negative) in this column. If the amount of the agency's adjustment is a portion of original difference, IRAS will label the excess amount

	as unknown. Remember: All accounting/ reporting errors, once identified, should be corrected in the following quarter. Additional explanations for Accounting/Reporting errors must be provided on the "Additional Explanations" attachment.
Timing Difference - Current Year	When an agency has verified/ reviewed/ agreed the amount reported to IRAS/GFRS is accurate, yet the difference in the agency's reporting and their partner reporting is due to reporting an amount in a different quarter within the same fiscal year, the amount of the error(s) is placed in the "Timing Difference – CY" column. When an agency has indicated an amount as a timing difference, this amount will be used to increase or decrease their original reporting. Only place the amount of adjustment (positive or negative) in this column. If the amount of the agency's adjustment is a portion of original difference, IRAS will label the excess amount as unknown.
	Remember: All current year timing differences, once identified, should be corrected in the following quarter. Additional explanations for Timing Difference – CY must be provided on the "Additional Explanations" attachment.
Unknown	When an agency cannot verify the accuracy of the amount reported to IRAS/GFRS, an "X" is placed in the "Unknown" column. When agencies submit unverified data, further explanation must be provided on the "Additional Explanations" attachment describing the circumstances regarding data submission. "Unknown" explanations are expected to be researched further and identified for future reporting.
Timing Difference - Prior Year	When an agency has verified/ reviewed/ agreed the amount reported to IRAS/GFRS is accurate, yet the difference in the agency's reporting and their partner reporting is due to

reporting an amount in a prior fiscal year, an "X" is placed in the "Timing Difference –PY"
column. Prior year timing differences need no amounts entered. Additional explanations for
Timing Difference – PY must be provided on
the "Additional Explanations" attachment.

^{*} All Explanations are from YOUR agency's perspective.

APPENDIX J

Agency Quarterly Intragovernmental <u>Data File Submission Checklist</u> <u>Agency:</u>

The Intragovernmental Team at FMS has created this Agency Data File "F" Submission Checklist to allow flexibility within the required reporting parameters and to identify the manner in which the quarterly files are received.

Please check (i.e., click with your mouse) the appropriate responses for the category formats indicated below and submit this checklist along with the data file. All checkmarks and text entries must be made only in the <u>shaded</u> areas of the form.
